**Question: (Explain in detail)**

Please note access gate override switch shown on the ACCESS GATE WIRE DIAGRAM on sheet E 2.6. The bid documents indicate said gate override switch is to be provided within the security office. However the documents do not appear to identify the location of the security office intended to house said switch. Please clarify, is it intended to be the small guard booth that sets in the center of the street directly across from this gate arm; or is it the intent to run this wire to some other security office location?

---

**Response:**

Gate override switch is to be located in the Security Booth room 301 shown on A1.1 column line B8.
