## **SUMMARY OF CHANGES/REVISIONS AND CLARIFICATIONS**

The initial summary of changes/revisions and clarifications in this amendment are for information in solicitation VA248-16-R-0725. Corresponding sections and page numbers are provided as reference. The site visit attendance list, other procurement information and applicable attachments are at the latter part of this document. Offerors shall read this amendment in its entirety.

### **1. PRICE SCHEDULE**

#### **CLINS LISTING REVISED**

PAGE 7

The price schedule and proposal breakout instructions located on page 7 of RFPVA248-16-R-0725 is revised. The revised price schedule is provided in Attachment 1 of this amendment.

Proposed pricing on the revised schedule will include itemized alternate deductive CLINS for each building requiring replacement of an existing roofing system with the Thermoplastic Polyolefin (TPO) Roofing. Submitted proposals shall include pricing as a lump sum and pricing as alternate deductive CLINS for the Buildings and specified areas on the Price Schedule. Offerors shall use the price schedule in Attachment 1 of this amendment to provide the company's pricing in submitted proposals.

To make an award within budgetary constraints, the Government may accept proposed pricing as a lump sum amount; lump sum with a combination of the proposed alternate deducts CLINS; or a combination of the proposed alternate deducts CLINS for contract award. To maintain impartiality and consistency for competition and the source selection process, proposed pricing for the same deduct CLIN(S) or Building(s) will be reviewed on all proposals rated "Technically Acceptable." Contract award is contingent upon reaching a source selection decision and having adequate funding, FAR 52.232-18, Availability of Funds.

#### **PRICE BREAKDOWN INSTRUCTIONS FOR SUBCONTRACTORS' INFORMATION ON PROPOSALS REVISED**

PAGE 7

Attachment 2 has an example of proposal breakout to support the new price schedule format and a list of the required information for subcontractors' supporting pricing quotes/offers. Offerors shall ensure price proposals are broken out by building with the amounts for major trades and labor (including differential wage) required for work accomplishment (see example on Attachment 2). Subcontractors' supporting pricing shall have all required information as listed on Attachment 2.

## 2. STATEMENT OF WORK

### TIME EXPIRED - NO SUBMISSION OF ROOFING SYSTEMS EQUAL OR HIGHER PRODUCT

PAGE 8

Unless specified a subsequently issued amendment, Thermoplastic Polyolefin (TPO) roofing meets the desired quality standards per FAR 52.236-5, Material Workmanship, and shall be the only roofing system in submitted proposals

The submission due date/time of July 28, 2016 at 2:00pm EST for proposed products that equal or exceed quality and all product constraints in specification Section 07 54 23 Thermoplastic Polyolefin (TPO) Roofing has expired. The submission timeline established sufficient time to conduct a formal review for approval or disapproval proposed products. Assessing proposed equal products is not a factor or subfactor for the source selection; therefore, product reviews were accomplished prior to proposal submission.

Submitted proposals shall include roofing products and materials as stated in Solicitation VA248-16-R-0725 and its amendments. If selected for award, noncompliant offerors shall be responsible for all costs to obtain specified roofing products and materials prior to contract performance. The Government shall not compensate noncompliant awardees.

**WAGE DETERMINATION  
GENERAL DECISION NUMBER FL160018 07/22/2016 FL18**

General Decision Number: FL160018 07/22/2016 FL18

Superseded General Decision Number: FL20150018

State: Florida

Construction Type: Building

County: Hillsborough County in Florida.

BUILDING CONSTRUCTION PROJECTS (does not include single family homes or apartments up to and including 4 stories).

Note: Under Executive Order (EO) 13658, an hourly minimum wage of \$10.15 for calendar year 2016 applies to all contracts subject to the Davis-Bacon Act for which the solicitation was issued on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.15 (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in calendar year 2016. The EO minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under the EO is available at [www.dol.gov/whd/govcontracts](http://www.dol.gov/whd/govcontracts).

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

-----

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a

union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- \* an existing published wage determination

- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
Wage and Hour Division  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

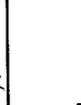

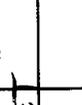

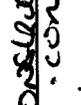

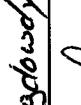

Administrative Review Board  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

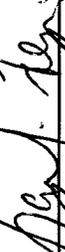

4.) All decisions by the Administrative Review Board are final.

## THIRD PARTY PHOTOGRAPH OF ROOF CORE

The subsequent attachments are a photograph of an unauthorized roofing core that took place during the site visit and a map showing the location where the incident occurred. The site visit attendee, who performed the unauthorized act, sent the photograph and map to the Government. Several attendees at the site visit requested a copy of the information. **This information is not associated with the conformed project specifications, drawings and any requirement information provided on behalf of the Government for contract award.**

The site visit (as scheduled by the Government) enabled sufficient viewing for a reasonable, qualified experienced roofing contractor to determine what services are required for task performance. The Replace Roof Systems Campus Wide project does not require trained geologists underground subsurface tasks.

The unauthorized core of the roofing has no bearing on the adequacy of the site visit that was conducted for other offerors. The unauthorized core incident itself and posting of the photo and map shall not be misconstrued as to having any relevancy or significance to the source selection for the contract award. This incident did not result in information; if any, that would be pertinent to the most significant factors and subfactors for the source selection. Offerors shall read all information provided on behalf of the Government in Solicitation VA248-16-R-0725 and posted amendments.

**Disclaimer:** This subsequent information was forwarded to the Government by a third party and is provided per a request from Site Visit Attendees. This information is **not incorporated into** and is **not applicable to** the conformed documents and information issued on behalf of the Government for Replace Roof Systems Campus Wide. Offerors are **solely responsible** for all interpretation and assumptions of this information as it relates to the procurement. The Government is not liable and is not accountable for: its content (details provided/lack thereof), providing further analysis or responding to any inquiries surrounding this information, which resulted from an unauthorized act that is not standard procedure for Tampa's roofing project site visits.
