PROJECT LOCATION: Syracuse, NY

SUBJECT: Telecom / Data Grounding

SPEC SECTION: \_\_\_\_\_

DRAWING NO: EP-501

REQUEST: The grounding of the Telecomm & Data system is conflicting. Detail #7 shows bonding of all new telecomm sleeves AND raceways, while Detail #4 - Note #4 says that "all conduits shall terminate in an accessible ceiling. Furnish with bushed ends". These bushed ends indicate that each data drop does NOT require grounding. Please clarify the requirement.

DATE RESPONSE REQUIRED: \_\_\_\_\_

RESPONSE: Detail 4 is correct. Contractor to provide conduit to accessible ceiling with bushing. T/D wiring will continue in cable tray at that point. Conduit from backbox to accessible ceiling does not need to be grounded.
