Thank you for your interest in Virtual Imaging, Inc. and our products and services. We hope that within this quotation you will find all of the information requested, and should you need any additional information or follow-up, please do not hesitate to contact the account executive listed in this quote. Thank you for the opportunity. The team at Virtual Imaging looks forward to working with you!

EQUIPMENT DETAILS

Canon CXDI-70C Wireless Upgrade to Existing GE Chest System

Qty	Part Number	Description	Unit List	Ext. List	Unit Net	Ext. Net
1		Canon CXDI-70C Wireless Upgrade to Existing GE Chest System				
	VCAN-UPG-70C	<p>Canon CXDI-70C Upgrade Package</p> <p>Canon CXDI-70C Wireless Detector</p> <p>The Canon CXDI-70C Wireless portable, lightweight DR system provides super high resolution, high quality, filmless image capture for a broad range of radiographic applications, including trauma, ICU and bedside exams. The CXDI-70C Wireless is an ISO 4090 compliant cassette size detector that can fit into existing bucky trays, or in new equipment trays with ease. Offering high-quality diagnostic images efficiently with minimal X-ray exposure to patients the CXDI-70C Wireless is ideal for all radiographic use, especially pediatric. This portable DR system consists of a Canon Amorphous Silicon (a-Si) Flat Panel Detector and a Cesium Iodide (CsI) scintillator, allowing for extremely effective X-ray absorption and high signal-to-noise performance. The large 14-inch x 17-inch imaging area and portable design - just over a half-inch thick (0.6 inches) and weighing only 7.5 lbs - allow the CXDI-70C Wireless to be especially useful with patients who have limited mobility and for capturing images at angles that are difficult to set with fixed devices.</p> <p>Includes:</p> <ul style="list-style-type: none"> 1 - CXDI-70C Wireless imaging unit 1 - Operation manual 2 - Battery Packs <p>Features and Specifications:</p> <ul style="list-style-type: none"> Detector - Scintillator: Cesium Iodide - Pixel Pitch: 125 microns - Pixels: 2,800 x 3,408 (9.5 million) - Imaging Area: 14 inches x 17 inches (35 cm x 43 cm) - Battery Performance: 140 images (@100 sec cycle, 1 sec sleep) - Wireless Standard: IEEE 802.11N
