MCCLELLAN VA OUTPATIENT CLINIC

5342 DADLEY BLVD.

MCCLELLAN, CA 95652

Quote Nr:**1-3PJTDV Rev. 0****ACUSON X300 System -ultrasound system - r7.0****All items listed below are included for this system:**

Qty	Part No.	Item Description
1	07465805	Cordset, 115V, G40 Custom cordset and plug. Valid only with 115V fuse. Cordset for use of the G40, X150, X300, X500 and G60S rev10.0 system in Brazil, Canada, Korea, Mexico, Philippines, Saudi Arabia, Taiwan, USA
1	10348231	SieClear, X300 SieClear(tm) multi-view spatial compounding uses multiple lines of sight to increase contrast resolution and improve tissue differentiation of low contrast lesions.
1	10349024	syngo Auto OB, X300 This innovative algorithm provides the ability to auto-measure four major fetal structures required for biometric measurements
1	10133000	DICOM Connectivity, X300 Software License for use of DICOM Networking Software. Provides digital image transfer via a DICOM network for both printing and storage.
1	10030614	VF13-5 Linear Array The VF13-5 linear array transducer uses high resolution, high-density 128-element technology. On the SONOLINE G40, ACUSON X150 and ACUSON X300 system this transducer offers user-selectable MultiHertz(tm) multiple-frequency imaging, expanding its clinical versatility. Applications: Small Parts, Breast, Musculoskeletal, and Orthopedics Features include: - 2D, M-Mode frequency range: 12 - 7 MHz - Center Frequency: 8.6 MHz -THI
1	08648086	CH5-2 Curved Array Transducer The CH5-2 transducer uses Hanafy Lens transducer technology migrated from Siemens high-end ultrasound systems. This technology ensures uniform image quality throughout the field of view. MultiHertz(tm) multiple frequency imaging provides user selectable transmit frequencies for optimal resolution and penetration. The ergonomically designed transducer features microCase(tm) transducer miniaturization technology and Suppleflex(tm) transducer cables to help reduce repetitive stress injuries. Applications: adult abdomen, renal, obstetrics and gynecology. Features include: - 2D, M-Mode frequency range: 5-2 MHz - THI* frequency range:: 5-2 MHz - Doppler frequency range: 3-2 MHz - 63mm aperture available in all imaging modes - Field of view: up to 68 degrees (system dependent) (* THI is an option for G40, X150 and X300)
2	08648037	EV9-4 Transducer The EV9-4 tightly curved array endovaginal transducer uses ultra-sensitive wideband 128-element technology for improved resolution and penetration. User-selectable MultiHertz(tm) multiple frequency imaging expands its clinical versatility. Applications: Gynecology and Early Obstetrics Features include: - 2D, M-Mode frequency range: 8.0 - 5.0 MHz - Doppler frequency range: 5.0 - 4.0 MHz - Radius of Curvature: 12.3 mm - Active field of view: 126° - Maximum depth: 140 mm -THI on X300 Optional re-usable and disposable needle guide

PRELIMINARY PROPOSAL

Qty	Part No.	Item Description
1	10348222	Printer Opt, USB BW Mitsubi, X300 The Mitsubishi P95DW is a USB connected high performance Thermal printer that provides high quality grey scale prints
1	US_APPS_INC L1D	Ultrasound Apps Training 1 day included
1	ACU_MISC_EX P	One complimentary Biomedical Tuition,
1	4USSVC21	Additional Manual for Govt-X300 5.0
1	10566144	ACUSON X300PE System100V-230V 17"FPD The ultra-portable ACUSON X300(tm) ultrasound system, Premium Edition (PE) brings the benefits of Siemens innovative ultrasound technologies to the world of compact, mobile, high performance color Doppler ultrasound systems. The ACUSON X300 PE system combines best-in-class image quality with advanced technology and features such as a 17" monitor to meet your daily clinical needs across a comprehensive application range.
1	10566147	X300 7.0 SW Operating software ACUSON X300(tm) ultrasound system Premium Edition (PE) release 7.0.
1	10566263	Operating Sys,USA ENG,X300 PE 7.0 ACUSON X300(tm) ultrasound system, premium edition (PE) product- specific operating software, control panel and detailed Instructions for Use in English.

System Total:
