Purchase of SonoSite System includes four consecutive hours of installation provided by a SonoSite Clinical Specialist. The installation includes an overview of the product and accessories purchased, training on the features, functions, user interface, and system care/maintenance. Additional system installation can be purchased separately as needed. Available for US locations only.

Configuration - Included Items					
Item	Part Number - Description	Qty	List Per Unit	Unit Price	Extended Price
1	<p>L12001 -NanoMaxx 1.0.5.1</p> <p>SonoSite NanoMaxx high-resolution, all-digital, 6 pound (2.72 kg) ultrasound system with 8.4 in. diagonal digital display.</p> <p>Standard features include display module, 2D grayscale with SonoMB Multi Beam Technology, Tissue Harmonic Imaging, SonoHD Imaging Technology and Auto Gain, SonoAdapt Tissue optimization technology, Velocity Color Flow, Color Power Doppler, OB specific calculations package, M-Mode, PC direct connectivity capability (through USB Memory Stick - ordered separately). Also includes battery, NanoMaxx dock, ultrasound gel, and user guide on a CD (Printed user guides also available as a purchasable option). The NanoMaxx combines high performance with the ease-of-use, speed, flexibility and durability of hand-carried ultrasound. 1.5GB of on-board Flash memory will retain enough data for 40 patients with 50 images each. Connectivity is accomplished through 2 USB slots on the system which allow for direct sharing of images on a PC or Mac. The system uses a Video Electronics Standards Association (VESA) Flat Display Mounting Interface (FDMI) MIS-D 75 (75mm x 75mm) and MIS-D 100 (100mm x 100mm.), allowing direct mounts to many commercially available mounts. An optional rolling stand or GCX wall-mount kit is also available. Reliability and durability are backed by a five-year standard warranty, which is included in the price of the system. Software upgrades to the main system and transducer data bases are both accomplished through one of the 2 USB ports on the system. Additional features available to add to the system include: SWS, USB and W Printer, USB Bar Code Reader, DICOM, Wireless, B and W Printer and Embedded IMT with SonoCalc PC software. This product is designed with an intuitive interface with Chip Fusion Technology</p>	1			
2	<p>P12092 -L25N / 13-6 MHZ Transducer</p> <p>L25n / 13-6 MHz multi-frequency, broadband, 25 mm linear array transducer for nerve, vascular, musculoskeletal, and superficial imaging. Supports 2D with SonoMB Multi Beam Technology and Auto Gain capabilities, SonoHD Imaging Technology, Color Power Doppler, Velocity Color Flow. Transverse biopsy guide available. Maximum depth is 6 cm.</p>	1			
3	<p>L12738 -NanoMaxx V-Universal Stand</p> <p>Ergonomic stand secures SonoSite NanoMaxx system, provides an ergonomic mobile work platform and recharges internal battery. Also provides up/down and tilt movement capabilities for the attached NanoMaxx system. Power</p>	1
