

Hospitalist Services VABHHCS
VA263-16-Q-0711 Questions and Answers
See the answers highlighted in yellow.

1. Is there an incumbent here or is this a new requirement?

This contract isn't a direct replacement or a new requirement. This contract will be a supplement to a current long term BPA.

2. If there is an incumbent, what company currently holds this contract and at what hourly price?

The company that currently holds this BPA (and will over the course of this task order) is Jackson and Coker. The hourly rate that Jackson and Coker perform at is \$174.68/hr.

3. I would like to request that this offering be set-a-side as a SDVOSB offering. Per the latest ruling from Secretary McDonald this seems like a logical request. Please advise if this is possible and if it is not possible can you provide an explanation.

This requirement is a SDVOSB/VOSB set aside.

When I completed my market research I wasn't able to identify enough SDVOSBs that were capable, interested, or that could potentially perform this service at a fair and reasonable price. I decided to set it aside for and include VOSBs as well.
