VA Construction Waste Management Specifications (Section 01 74 19) require “Contractor shall use all reasonable means to divert construction and demolition waste from landfills and incinerators, and facilitate their salvage and recycle not limited to” the above. The contractor shall, (1.7 Records)” maintain records to document the quantity of waste generated; the quantity of waste diverted through sale, reuse, or recycling; and the quantity of waste disposed by landfill or incineration.”

Note: Contractor should submit copies of weigh tickets from the disposal center as back up documentation of the quantities indicated above. (3.3 Report) “With each application for progress payment, submit a summary of construction and demolition debris diversion and disposal.” (1.3 D Quality Assurance) “Any revenues or savings obtained from salvage or recycling shall accrue to the contractor.”
