

NUMBER	Quantity	Brand Name	Manufacturer	Model Number	Specifications
1	2	FORMULA 418 STENT, 5X16X80	COOK MEDICAL	FOR418-18-80-5-16	See MECs
2	2	FORMULA 418 STENT, 6X16X80	COOK MEDICAL	FOR418-18-80-6-16	See MECs
3	2	FORMULA 418 STENT, 6X20X80	COOK MEDICAL	FOR418-18-80-6-20	See MECs
4	2	FORMULA 418 STENT, 7X16X80	COOK MEDICAL	FOR418-18-80-7-16	See MECs
5	2	FORMULA 418 STENT, 7X20X80	COOK MEDICAL	FOR418-18-80-7-20	See MECs
6	2	FORMULA 418 STENT, 7X24X80	COOK MEDICAL	FORB4-18-80-7-24	See MECs
7	2	FORMULA 418 STENT, 7X30X80	COOK MEDICAL	FORB4-18-80-7-30	See MECs
8	2	FORMULA 418 STENT, 8X16X80	COOK MEDICAL	FORB4-18-80-8-16	See MECs
9	2	FORMULA 418 STENT, 8X24X80	COOK MEDICAL	FORB4-18-80-8-24	See MECs
10	2	FORMULA 418 STENT, 8X30X80	COOK MEDICAL	FORB4-18-80-8-30	See MECs
11	2	FORMULA 418 STENT, 6X16X135	COOK MEDICAL	FOR418-18-135-6-16	See MECs
12	2	FORMULA 418 STENT, 6X20X135	COOK MEDICAL	FOR418-18-135-6-20	See MECs
13	2	FORMULA 418 STENT, 7X16X135	COOK MEDICAL	FOR418-18-135-7-16	See MECs
14	2	FORMULA 418 STENT, 7X20X135	COOK MEDICAL	FORB4-18-135-7-20	See MECs
15	2	FORMULA 418 STENT, 7X30X135	COOK MEDICAL	FORB4-18-135-7-30	See MECs
16	2	FORMULA 418 STENT, 8X16X135	COOK MEDICAL	FORB4-18-135-8-16	See MECs
17	2	FORMULA 418 STENT, 8X30X135	COOK MEDICAL	FORB4-18-135-8-30	See MECs

(vi) A description of the items to be acquired, and/or applicable salient characteristics/minimum Government need(s) follows:

1. Formula 418 stents are FDA approved to elute the drug paclitaxel which inhibits the regrowth of scar tissue and plaque after placement
2. Formula 418 stents, unlike most balloon expandable, don't shorten, and their ends align with the balloon markers. These features help you to place the stent and to treat the stricture reliably and precisely.
3. Formula 418 balloon-expandable stents have additional crowns that give their stents a more circular shape and improve their scaffolding.
4. Formula 418 stents have one of the lowest tip profiles on the market, Formula 418 Biliary can help you cross strictures. The minimal balloon overhang facilitates precise treatment.
5. The VHA NCO 08 - 675 - Orlando, Florida requires these items, Brand Name or Equal. The Formula 418 Biliary stents are required to support the Lake Nona VA Medical Hospital Orlando, Florida.

Minimum Essential Characteristics (MECs)

(MECs)

- The stents shall be able to treat patients suffering from atherosclerotic disease of the renal arteries following suboptimal percutaneous transluminal renal angioplasty
- The stents shall be a bare metal stent used in the peripheral arteries.
- The stents shall not offer stent shortening during placement.
- The stents shall be FDA approved.
