(h) Certification Regarding Responsibility Matters (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1) [] Are, [] are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) [] Have, [] have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or

subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) [] Are, [] are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) [] Have, [] have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,500 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples.*

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(i) *Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126).*

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$4.27 per hour or \$170.80 per week or \$740.13 per month

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year, New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than \$27.63 (or on a salary or fee basis at a rate not less than \$455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds \$27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am.

If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordinance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives.

Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that

represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms

of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)}
When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).

2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.

3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the

wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

SECTION E - SOLICITATION PROVISIONS

E.1 52.212-1 INSTRUCTIONS TO OFFERORS—COMMERCIAL ITEMS (OCT 2015)

(a) North American Industry Classification System (NAICS) code and small business size standard. The NAICS code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet (SF 1449). However, the small business size standard for a concern which submits an offer in its own name, but which proposes to furnish an item which it did not itself manufacture, is 500 employees.

(b) Submission of offers. Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show—

(1) The solicitation number;

(2) The time specified in the solicitation for receipt of offers;

(3) The name, address, and telephone number of the offeror;

(4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;

(5) Terms of any express warranty;

(6) Price and any discount terms;

(7) "Remit to" address, if different than mailing address;

(8) A completed copy of the representations and certifications at FAR 52.212-3 (see FAR 52.212-3(b) for those representations and certifications that the offeror shall complete electronically);

(9) Acknowledgment of Solicitation Amendments;

(10) PAST PERFORMANCE will be evaluated for Quality of Service, Schedule, Business relations with Customers, Management of Key Personnel, Safety, Problem Resolution, Invoice Accuracy, and Overall Performance of the company in this area. Utilizing the Past Performance Questionnaire, **offeror's shall provide three (3) references within the last three (3) years with accurate Point of Contact (POC) information, of similar or like type projects in scope, size, and pricing (e.g., Scope – the type of work this project is asking for, raise & realign flat markers, etc.; Size - approximately the number of each as this project is asking for; Price – approximately the same price or better as offeror's estimate for this project).** Offerors shall also provide the number of projects they are currently working on for NCA, with the corresponding Contracting Officer's name, telephone, and contract information. Referrals that are not like in type will be rated lower than referrals more closely related to this project. Experiences with prior cemetery work will be given greater consideration as well as contracts that are comparable in all three areas of pricing, size, and scope. Offerors are encouraged to submit referrals that specifically

address experiences with cemeteries, and the particular type of work/s specifically requested in this solicitation. Contact information provided with referrals must be reachable by telephone or email. The Government will not research contact numbers or emails. If a referral cannot be reached with the information provided, offeror will not get credit for that referral (e.g. wrong number, company does not exist, never heard of the project, phone disconnected, email address not recognized or undeliverable, etc.) At least three reachable references must be submitted. Additionally, the Government expects referrals to fall close to the Government's cost Estimate (IGCE) or the offeror's own estimate for the project. Referrals significantly below the IGCE or the offeror's own estimate will be considered non-responsive (e.g. if the IGCE or the offeror's bid is for \$500,000.00, the Government will not accept referrals for a project for \$30,000.00. That is too large of a gap and indicates that the offeror may not have the experience level or have completed a project of such a size to justify or warrant an increase of that magnitude. If the project is to raise/realign headstones, providing past performance regarding only cutting grass will not suffice. Offerors are to provide a list of the sub-contractors they commonly use on their projects. This is an evaluation item and you will get no credit in this area if this is not provided. Also offerors are to provide contact information on any active or pending assignment of claims or factoring agreements. The Government will use information submitted by the offeror and other additional sources such as Federal Agencies as well as commercial sources in order to access past performance. In addition, the Government will also validate past performance information by utilizing the Federal Government's Contractor Performance Assessment Reporting System (CPARS). Offerors are to demonstrate successful performance under contracts (ongoing or completed) which are similar in scope, magnitude, price, and complexity to the subject requirement. In cases where an offeror without a record of relevant past performance or for whom information on past performance is not available, the offeror may not be evaluated favorable or unfavorable (neutral). This includes non-like referrals and referrals where contact information provided cannot be reached telephonically or by email.

CLIENT SATISFACTION: Those contact responses will be scored based on the client overall satisfaction with the project(s) identified in which the Prime has participated and will be weighted more heavily than project(s) participated in as a consultant, sub-contractor and/or individual. Contacts will be asked if the project(s) fulfills the requirements of the client(s) stated function, does the project require unexpected maintenance activity and have latent defects been found? Did the client experience "partnering" with the offeror to solve problems encountered during performance, contractor's attention to safety on the job site. Was the communication of schedule and problems issues adequate and consistent? Was there an established problem solving routine? Would the client recommend and/or consider the offeror again in future projects? What was the change order rate as a percentage to the total project cost (if any) for the most recent five projects complete? And were the changes owner or offeror generated and reasons for the change?; and

Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) Period for acceptance of offers. The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(2)(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and—

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) Contract award (not applicable to Invitation for Bids). The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) Multiple awards. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

E.8 52.212-2 EVALUATION--COMMERCIAL ITEMS (OCT 2014)

- a) The Government will award a Firm-Fixed price contract using the best value tradeoff approach resulting from this solicitation to the responsible offeror whose proposal is most advantageous to the Government regarding price and other factors considered. In addition, the Government intends to award without discussions. Therefore, the offeror's initial proposal should contain optimal terms from a price and technical standpoint.

The following factors listed in descending order of importance will be used to evaluate offers: (1) Past Performance, (2) Technical Qualifications; and (3) Price. Past Performance and Technical Capability when combined are more important than Price.

- b) Options: The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s). Before the offeror's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt unless a written notice of withdrawal is received before award.
- c) A written notice of award or acceptance of an offer mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer shall result in a binding contract without further actions to be taken by either party.

(End of Provision)

ADDENDUM TO FAR 52.212-2 EVALUATION--COMMERCIAL ITEMS (OCT 2014)**EVALUATION OF QUOTATIONS:**

Proposals will be evaluated based on the following factors listed as shown below:

Past Performance: Past Performance will be evaluated for Quality of Service, Schedule, Business relations with Customers, Management of Key Personnel, Safety, Problem Resolution, Invoice Accuracy, and Overall Performance of the company in this area. Utilizing the Past Performance Questionnaire, offeror's shall provide three (3) references within the last three (3) years **with accurate Point of Contact (POC) information, of similar or like type projects in scope, size, and pricing** (e.g., Scope – the type of work this project is asking for, raise & realign flat markers, etc.; Size - approximately the number of each as this project is asking for; Price – approximately the same price or better as offeror's estimate for this project). Offerors shall also provide the number of projects they are currently working on for NCA, with the corresponding Contracting Officer's name, telephone, and contract information. Referrals that are not like in type will be rated lower than referrals more closely related to this project. Experiences with prior cemetery work will be given greater consideration as well as contracts that are comparable in all three areas of pricing, size, and scope. Offerors are encouraged to submit referrals that specifically address experiences with cemeteries, and the particular type of work/s specifically requested in this solicitation. Contact information provided with referrals must be reachable by telephone or email. The Government will not research contact numbers or emails. If a referral cannot be reached with the information provided, offeror will not get credit for that referral (e.g. wrong number, company does not exist, never heard of the project, phone disconnected, email address not recognized or undeliverable, etc.) At least three reachable references must be submitted. Additionally, the Government expects referrals to fall close to the Government's cost Estimate (IGCE) or the offeror's own estimate for the project. Referrals significantly below the IGCE or the offeror's own estimate will be considered non-responsive. The Government will use information submitted by the offeror and other additional sources such as Federal Agencies as well as commercial sources in order to access past performance. In addition, the Government will also validate past performance information by utilizing the Federal Government's Contractor Performance Assessment Reporting System (CPARS). Offerors are to demonstrate successful performance under contracts (ongoing or completed) which are similar in scope, magnitude, price, and complexity to the subject requirement. In cases where an offeror without a record of relevant past performance or for whom information on past performance is not available, the offeror may not be evaluated favorable or unfavorable (neutral). This includes non-like referrals and referrals where contact information provided cannot be reached telephonically or by email.

CLIENT SATISFACTION: Those contact responses will be scored based on the client overall satisfaction with the project(s) identified in which the Prime has participated and will be weighted more heavily than project(s) participated in as a consultant, sub-contractor and/or individual. Contacts will be asked if the project(s) fulfills the requirements of the client(s) stated function, does the project require unexpected maintenance activity and have latent defects been found? Did the client experience “partnering” with the offeror to solve problems encountered during performance, contractor’s attention to safety on the job site. Was the communication of schedule and problems issues adequate and consistent? Was there an established problem solving routine? Would the client recommend and/or consider the offeror again in future projects? What was the change order rate as a percentage to the total project cost (if any) for the most recent five projects complete? And were the changes owner or offeror generated and reasons for the change?

Technical Qualifications: Technical qualifications will be evaluated to determine the extent to which contractors demonstrate a clear understanding of all features involved in the performance of the requirements identified in the Statement of Work. The proposal should not simply restate the Government’s requirements, but it should describe, in detail, how the offeror intends to meet the requirements. In particular, offerors must provide information for the following sub-factors, which are weighted equally:

Sub-Factor 1 – Corporate Project Experience:

The offeror shall provide information on your company’s capabilities; years in business; type and age of equipment to be used on the project; demonstrate corporate experience with no more than three (3) projects completed within the last five (5) years and/or similar in size and scope to this project as outlined in the solicitation specifically addressing projects you have completed that are similar to this request. In describing project experience, provide the following:

- (i) Project title, location, and a brief description
- (ii) Project owner, name, telephone number of owner’s contact person
- (iii) Project’s Prime contractor and major sub-contractors and name and telephone number of each contact person(s). NOTE: Each firm and managing person(s) (project manager/superintendent/foreman as the case may be) proposed for this project
- (iv) Project start and completion dates (original vs. actual), reasons for any delays and/or change orders
- (v) Experience in the proposed area industry market
- (vi) List number of projects currently ongoing and of that number the number that may affect this proposal and there completion date(s). NOTE: location of head office, branch office(s) and location of person with authority to sign contractual documents.

-

Sub-Factor 2 – Project Personnel Experience:

The offeror shall demonstrate the specialized experience and technical competence of the key personnel who will be assigned to this project specifically addressing projects with an emphasis on working within a National Cemetery or similar location/venue. At a minimum, this shall include both the Project Manager and on-site superintendent/foreman. In describing this criteria, provide the following:

- (i) Name of individual
- (ii) Firm employed by and/or with
- (iii) Company position and title
- (iv) Years with the company
- (v) Describe work experience with project(s) similar in scope
- (vi) Indication of which, if any, project(s) submitted under Corporate experience above, the individual participated in and what the individuals responsibility while assigned to the project(s)
- (vii) Position and/or responsibility that individual will hold in regards to the project team, description of duties and what percentage of the individual's time will be committed to this project. Describe educational background/experience, including degrees, certifications, etc. and granting institution
- (viii) Experience of local market/conditions of key personnel assigned to the project

Sub-Factor 3 – Technical/Management Approach:

The offeror shall demonstrate the following relevant to the subject project:

- (i) Project Delivery Philosophy including statements of commitment and conflict resolution
- (ii) Offerors' Quality Assurance and Quality Control Programs/measurements
- (iii) Capability to perform, including offeror's total bonding capacity, current available bonding capacity and projected available bonding capacity

Sub-Factor 4 – Scheduling/Phasing:

The offeror shall demonstrate the following:

- (i) Approach for this project, including a proposed project work schedule in a time scaled bar graph format beginning with the Notice to Proceed and concluding with contract completion. All schedule items shall show, start date and completion date, specific tasks, labor man hours and cost for each schedule item with allotted time for weather, interments, and government holidays
- (ii) Provide a written narrative plan to demonstrate understanding of the safety and phasing requirements to include documentation of site-supervisor and/or foreman completion of 10 hour OSHA training

List subcontractors - their social economic status (i.e. Disabled Veteran, Veteran, Small, Large Business, etc.) - and percent of work they will perform; (iv) the surveyor/survey company you will be using

Price: Provide a breakdown of your pricing and the pricing methodology you used. Include any assumptions made with your bid. Just providing a figure will not be enough. A low price and/or pricing with no breakdown will be considered an inferior offer and deemed non responsive. The Government needs to know the method used in arriving at your figures. The lowest bidder will not necessarily get this award. This is not an Invitation for Bid (IFB). Simply providing a price with no substantial information on pricing and/or capabilities and/or performance will result in an inferior proposal and may be considered non responsive. The Government will not consider offers that are considerably low or too high. Pricing may be compared against the IGCE or against the average mean of the offers received to arrive at a competitive range in determining too low/too high offers. Also, if a wage rate is included with this solicitation, provide the proposed wages you will be paying to compare against the wage rate. You can provide this as a range if you do not want to list direct wages. Wage rates only apply to hourly employees, not salary employees; but you cannot convert a traditionally hourly employee to a salary employee to avoid the wage rate.

Failure to submit all required documentation as required may result in your submission being found to be technically unacceptable.

The lowest bidder will not necessarily get this award. This is not an Invitation for Bid (IFB). Simply providing a price with no substantial information on pricing and/or capabilities and/or performance will result in an inferior proposal and may be considered non responsive. The Government will not consider offers that are considerably low or too high. Pricing may be compared against the IGCE or against the average mean of the offers received to arrive at a competitive range in determining too low/too high offers. Also, if a wage rate is included with this solicitation, provide the proposed wages you will be paying to compare against the wage rate. You can provide this as a range if you do not want to list direct wages. Wage rates only apply to hourly employees, not salary employees; but you cannot convert a traditionally hourly employee to a salary employee to avoid the wage rate.

E.4 52.209-5 CERTIFICATION REGARDING RESPONSIBILITY MATTERS (OCT 2015)

(a)(1) The Offeror certifies, to the best of its knowledge and belief, that—

(i) The Offeror and/or any of its Principals—

(A) Are [] are not [] presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have [] have not [], within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks "have," the offeror shall also see 52.209-7, if included in this solicitation);

(C) Are [] are not [] presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in subdivision (a)(1)(i)(B) of this provision; and

(D) Have [], have not [], within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,500 for which the liability remains unsatisfied.

(1) Federal taxes are considered delinquent if both of the following criteria apply:

(i) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) *Examples.*

(i) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(ii) The Offeror has [] has not [], within a 3-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) Principal, for the purposes of this certification, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

THIS CERTIFICATION CONCERNS A MATTER WITHIN THE JURISDICTION OF AN AGENCY OF THE UNITED STATES AND THE MAKING OF A FALSE, FICTITIOUS, OR FRAUDULENT CERTIFICATION MAY RENDER THE MAKER SUBJECT TO PROSECUTION UNDER SECTION 1001, TITLE 18, UNITED STATES CODE.

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

(End of Provision)

E.5 52.209-5 REPRESENTATION BY CORPORATIONS REGARDING AN UNPAID TAX LIABILITY OR A FELONY CONVICTION UNDER ANY FEDERAL LAW (DEVIATION)(MAR 2012)

(a) In accordance with Division H, sections 8124 and 8125 of P.L. 112-74 and sections 738 and 739 of P.L. 112-55 none of the funds made available by either Act may be used to enter into a contract with any corporation that—

____ (1) Has an unpaid federal tax liability, unless the agency has considered suspension or debarment of the corporation and the Suspension and Debarment Official has made a determination that this action is not necessary to protect the interests of the Government.

____ (2) Has a felony criminal violation under any Federal or State law within the preceding 24 months, unless the agency has considered suspension or debarment of the corporation and Suspension and Debarment Official has made a determination that this action is not necessary to protect the interests of the Government.

(b) The Offeror represents that—

____ (1) The offeror does [] does not [] have any unpaid Federal tax liability that has been assessed and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability.

____ (2) The offeror, its officers or agents acting on its behalf have [] have not [] been convicted of a felony criminal violation under a Federal or State law within the preceding 24 months.
