

Site Visit held on January 4, 2017, 10am at the Manchester VA Medical Center

Held by: Albert Brown, Housekeeping Supervisor

Length: 20 minutes

Discussion:

Clarified which dumpster we owned and the frequency of pickups for the solid waste compactor and single stream recycling. Answered was “weekly for solid waste and bi weekly for single stream recycling”. The other question was the frequency of pickups for the 30 yd. roll off? Not answered at site visit.
