4. Statutory Authority Permitting Other than Full and Open Competition:

- (X) (1) Only One Responsible Source and No Other Supplies or Services Will Satisfy Agency Requirements per FAR 6.302-1;
() (2) Unusual and Compelling Urgency per FAR 6.302-2;
() (3) Industrial Mobilization, Engineering, Developmental or Research Capability or Expert Services per FAR 6.302-3;
() (4) International Agreement per FAR 6.302-4
() (5) Authorized or Required by Statute FAR 6.302-5;
() (6) National Security per FAR 6.302-6;
() (7) Public Interest per FAR 6.302-7;

5. Demonstration that the Contractor's Unique Qualifications or Nature of the Acquisition Requires the Use of the Authority Cited Above (applicability of authority):

The existing system was installed and implemented and currently maintained by NETECH4U. NETECH4U installed the original configuration and network mapping. It will not be advantageous of the government to allow another vendor to reinstall all new equipment for wireless services. In addition, the WIFI system not only runs our guest WIFI but also our medication tube system and mission critical facility management systems.

In essence, the cost to the government would be immense to switch out vendors for this type of coverage. There will be a substantial duplication of cost to the government which may not be recuperated through competition.

Furthermore, a break in service will cause unacceptable delays in agency's requirement needs. At the present time, the maintenance agreement is tied to the wireless service agreement that NETECH4U provides through AT&T. The maintenance agreement must renew with AT&T and cannot be changed unless the wireless service agreement is amended.

6. Description of Efforts Made to ensure that offers are solicited from as many potential sources as deemed practicable:

A Sources Sought was posted under VA256-17-N-0053 under NAICS -519190 - All Other Information Services, dated 11/16/2016 for WIFI Internet Services. A total of seven (7) responses were received.

The Contracting Officer reviewed all interested vendor's capability statements and determined that

Chapter VI: Other Than Full and Open Competition (OFOC) SOP
Attachment 3: Request for Sole Source Justification Format >\$150K

these vendors could provide the required services, but ultimately it will not be cost effective for the government. Unacceptable delays will incur if the government should switch to another vendor; therefore, it will not be cost effective for the government to change vendors at this time. A new vendor will have to reinstall their WIFI service provider equipment which will cause a break in service and delay of this requirement.

7. Determination by the Contracting Officer that the Anticipated Cost to the Government will be Fair and Reasonable:

The estimated cost of this requirement has been determined to be fair and reasonable based on similar WIFI maintenance services at other facilities and the estimated cost indicated on the IGCE provided by the using service.

8. Description of the Market Research Conducted and the Results, or a Statement of the Reasons Market Research Was Not Conducted:

As described in Section VI above, market research, in accordance with FAR Part 10, was conducted by synopsis of the proposed acquisition. Based upon market research, it has been determined by the Contracting Officer that additional market research is not required. Presently, NETECH4u is the only vendor who can provide this service to the facility with cost savings to the government. (See #5 for additional justification). Presently, it would not benefit government to change wireless network provider due to a substantial duplication in costs.

9. Any Other Facts Supporting the Use of Other than Full and Open Competition:

NETECH is a local vendor here in the area which will also save the government in costs and the company is readily available to assist if an emergency should arrive with the wireless service.

10. Listing of Sources that Expressed, in Writing, an Interest in the Acquisition:

PC PLUS Network
Global business Tech
Perseus LLC
Anaptyx, LLC
Intellispring Technologies
Combridge
Four Points Technology

11. A Statement of the Actions, if any, the Agency May Take to Remove or Overcome any Barriers to Competition before Making subsequent acquisitions for the supplies or services required:

Chapter VI: Other Than Full and Open Competition (OFOC) SOP
Attachment 3: Request for Sole Source Justification Format >\$150K

It has been determined by the Contracting Officer that a competition strategy at this time will not be advantageous to the government. However, the market will continue to be monitored for other sources available for competition in the future research.
