

AMENDMENT NO. 2 CONTRACTOR QUESTIONS AND CLARIFICATION

1. Drawing SD1-101 - There are (7) section markers on the drawing that have no designation such as a section number and where it can be found.
Answer: Section markers without designations are sections used by the designers for their use during design. They will be removed from the drawing.
2. Drawing AD1-01 - in building 1 there is note (key note 22) indicating the removal of window stool and window blinds but no mention of the windows. It is assumed the windows are to be removed based on the note 13 on drawing AS1-101 indicating patch window opening. Please advise if assumption is correct.
Answer: The windows are to remain. The note for patch the window opening is for patching the wall where the blinds and stool were removed.
3. Drawing AS1-101 - There are (2) section markers on the drawing that do not have a designation such as a section number and where it can be found
Answer: Section markers without designations are sections used by the designers for information. They will be removed from the drawing.
4. Drawing AS1-102 - Section 1 (section at roof hatch) indicates spray insulation however there does not appear to be a specification for this material.
Answer: Thermal spray insulation is not required.
5. Drawing AS5-101 - On most of the architectural drawings it is indicating an aluminum handrail within the bridge. Section 1 on this drawing appears to indicate 1 ½" Dia. S.S. Handrail. Which is required?
Answer: Handrail should be aluminum and match the railing in Building 1. Reference to S.S. will be revised.
6. Specifications - There is a specification section 03 45 00 precast architectural concrete. It is assumed this is for the precast window sill noted in 3/AS8-101.
Answer: Correct.
7. Specifications - There is a specification section 07 24 00 Exterior Insulation and Finish System in the table of contents but it was not part of the bid documents received from the FBO site. No EIFS requirements can be found on the contract drawings
Answer: Section 07 24 00 is not required.
