

Amendment is issued to add the following:

1. Section 1.8 INFECTION PREVENTION MEASURES, Paragraph A. The following wording is added:

"The Waco ICRA team shall issue an individual assessment for each phase of construction identifying the specific infection control measures. The Contractor minimally shall comply with Construction Activity Type D, Class IV assessment control procedure requirements for each phase of construction. Contractor shall request written copy of each phase's specific ICRA assessment fifteen days prior to start of the work in a particular phase from the COTR. NO construction work in any phase shall begin until all Contractor in place infection control measures are inspected and approved as acceptable by ICRA team, and the CO or COTR.

2. Infection Control Risk Assessment, ICRA, PHASE I
