

**National Dialysis Electronic Health Record (EHR) Solution Contract  
Request for Proposal (RFP) Questions and Answers  
VA118-17-R-1804  
February 8, 2017**

**Note:**

The answers provided below are for informational purposes, to assist potential offerors in preparing proposals, and such answers do not themselves constitute an amendment to the Solicitation. Where questions and answers necessitated such an amendment, such changes have been or will be incorporated into a formal amendment to the Solicitation. To the extent that any answers provided below conflict in any way with the Solicitation and any Amendments, the final solicitation takes precedence.

<b>Q&amp;A #</b>	<b>RFP Section</b>	<b>Title</b>	<b>Page Begin</b>	<b>Question</b>	<b>Answer</b>
1.	D	Attachment 001 - National Dialysis EHR Pricing Sheet	-	<p>In Attachment 001, why is it that the quantities for maintenance don't quite line up with the quantities for the number of facilities in the Dialysis EHR Solution line item?</p> <p>For example: In Year 1 there are 12 small (1-12 stations) facilities in the Dialysis line, and 12 small facilities for support and in Year 2, 12 small facilities are added in the Dialysis line, bringing the total to 24, which matches the Qty for maintenance. However, in Year 3, the quantity for maintenance of small facilities is 37, when adding 12 more small facilities in the Dialysis line would bring the total to 36, however the Qty for maintenance is 37.</p>	The Government derived quantity estimates with anticipation of various facility scenarios that could occur through the life of this IDIQ. Attachment 001 contains estimated quantities that are being used for evaluation purposes only and do not obligate the Government to award such quantities. These quantities will not be incorporated into any resulting contract, and do not constitute a maximum quantity or ordering limit for that particular item or service. Unit prices will be incorporated into the contract for ordering at the task order level. Offerors are required to complete the pricing attachment as is.
2.	D	Attachment 001 - National Dialysis EHR Pricing Sheet	-	How is it possible to quote a price to support a EHR solution without delivering it first?	Offerors shall price the maintenance and technical support of its dialysis EHR solution based on the PWS requirements at PWS Task 5.4.
