9. It seems that the current incumbent was not able to fulfill the option years. Why weren't they extended the option years? Were they able to fulfill the entire base year?.

The contract VA786-16-C-0054 was awarded in FY16 to a small business vendor (Not SDVOSB) because during that time there wasn't enough SDVOSB competition for this requirement. When up for option year renewal, market research showed that there are now SDVOSBs available to fulfil this requirement. Because of this market research is why the government is resoliciting this requirement and not extending the option years with the incumbent, so that it can be set-aside and awarded to a SDVOSB.
