

## STATEMENT OF WORK (SOW)

### 1. **Contracting Officer's Representative (COR).**

Name:	
Section:	Pharmacy Service 03/119
Address:	5901 E. 7th St., Long Beach CA 90822
Phone Number:	
Fax Number:	
E-Mail Address:	

### 2. **Contract Title.** VALBHS Sterilization Testing

### 3. **Background.**

Media Fill and Glove fingertip tests are required to evaluate the aseptic manipulation techniques of all sterile compounding personnel. The United States Pharmacopeia (USP) standards in chapter <797> provide strict requirements for preparing sterile products. USP <797> requires all hazardous drugs (such as chemotherapy) and non-hazardous drugs (IV admixtures such as IV antibiotics, large volume parenteral, TPN's) to be prepared in a biological safety cabinet (BSC) placed in an area that is physically separated with negative pressure to adjacent positive pressure ante areas or in a Compounding Aseptic Containment Isolator (CACI).

### 4. **Scope.**

The purpose of this statement of work is to determine whether VHA facilities complied with selected requirements for the safe preparation of compounded sterile products (CSP).

### 5. **Specific Tasks.**

Contractor shall:

- a. Provide an annually Media-fill testing for low and medium risk, as well as, semi-annually for high risk facilities.
- b. Vendor shall also provide Gloved fingertip sampling; no less than three times initially and then annually for low-and-medium risk, and semi-annually for high risk facilities.

- c. Vendor will perform these tasks at VA Long Beach, 5901 East 7<sup>th</sup> Street, Long Beach, CA 90822

**6. Deliverables:**

Contractor shall provide the following:

- a. Compounding personnel will complete the USP 797 medium risk media-fill test using sterile bags for both Inpatient & Oncology staff.
- b. Incubate additional tests for Inpatient & Oncology staff if needed/required

**7. Packaging, Packing and Shipping Instructions.**

Address for performance is the following: VA Long Beach, 5901 East 7<sup>th</sup> Street, Long Beach, CA 90822

**8. Performance Monitoring**

Performance shall be monitored by the Inpatient and Oncology Supervisor and will include an oversight of each media-fill test performed.

**9. Place of Performance:** VA Long Beach, 5901 East 7<sup>th</sup> Street, Long Beach, CA 90822

**10. Estimated Period of Performance:** 3/13/17- 03/12/18
