This proposed sole source acquisition is to obtain, by use of other than full and open competition for the procurement of Primary Care Services & Mental Health Services in McComb, MS by means of an Interim Contract to the incumbent contractor. Estimated Value: \$638,201.65

4. Statutory Authority Permitting Other than Full and Open Competition:

- (X) (1) Only One Responsible Source and No Other Supplies or Services Will Satisfy Agency Requirements per FAR 6.302-1;

- () (5) Authorized or Required by Statute FAR 6.302-5;
- () (6) National Security per FAR 6.302-6;
- () (7) Public Interest per FAR 6.302-7;

5. Demonstration that the Contractor's Unique Qualifications or Nature of the Acquisition Requires the Use of the Authority Cited Above (applicability of authority):

The McComb MS CBOC provides a critical service for our ever growing Veteran population. The current contract is expiring 2/28/2017 but currently provides the needed services and has proven to be beneficial to the veteran constituents of the Gulf Coast area.

C R & Associates have been providing Primary Care & Mental Health Services since 2001 under various contract awards. They have worked very closely with the G.V. (Sonny) Montgomery VA Medical Center staff, patients, and resources within the CBOC. They have also gained significant knowledge of the current and daily operations. This continued relationship is crucial to patient care until a new contract is put into place. C R & Associates has an intimate knowledge of the patients, VA requirements, and G. V. (Sonny) Montgomery VA Medical Center infrastructure. If another vendor is selected, additional risk would be incurred as the new contractor's staff may not fully understand the care required nor have the experience to care for our unique veteran population. Furthermore, another source would require at least a minimum of ninety (90) to one-hundred (120) days start up time to include background and credentialing/privileging and also a learning curve while gaining familiarity with the G. V. (Sonny) Montgomery VA Medical Center computerized patient record system (CPRS)(and our veterans. This is time that is not available except with the new long term solicitation.

A new solicitation is in process which will be for a base period and include four (4) twelve-month option periods. The sources Sought Notice was published to FBO and the results are detailed in Paragraph 8 below. The VA has a very lengthy review process that includes an integrated Product Team, the Medical Sharing Office (which includes Patient Care Services and Legal) and the Contract Review Board.

Without this short term contract, the McComb CBOC would have to completely shut down which would cause our Veterans to have to seek their healthcare elsewhere. This could also negatively affect our Veterans continuity of care and would also have economic repercussions on the Government as the cost of their outside healthcare would be significantly higher than providing it at the current location. With services provided at the current clinic, the VA has quality monitoring controls in place to measure the exceptional care that our Veterans receive and deserve. This same quality monitoring is not afforded to the VA when care is provided outside in the community which could deem fatal for our Veterans in certain cases.

6. Description of Efforts Made to ensure that offers are solicited from as many potential sources as deemed practicable:

A Sources Sought Notice has been issued to the Federal Business Opportunities website (FBO) with a fully actionable package containing a similar description as Paragraph 3 above. More information is noted in Paragraph 8 below in regards to the market research effort for the long term competitive solicitation. In accordance with FAR 5.301, this sole source action will be synopsized and the justification will be made publicly available.

The release of the long-term solicitation is anticipated for release within two months (NLT 3/31/2017) on FBO.

7. Determination by the Contracting Officer that the Anticipated Cost to the Government will be Fair and Reasonable:

The Contracting Officer will determine that the anticipated cost to the government will be fair and reasonable based on the fact that the Interim pricing will be a flat 6.5% overall increase from the existing Contract previously negotiated and already bear the determination.

8. Description of the Market Research Conducted and the Results, or a Statement of the Reasons Market Research Was Not Conducted:

No market research was conducted for this interim sole source requirement. This is an established CBOC and the competitive long-term solicitation is currently in the MSO solicitation review phase. However, due to the situation and the necessity to have uninterrupted services, the contractor must be familiar with the GVMVAMC requirements and be able to immediately provide the required services.

9. Any Other Facts Supporting the Use of Other than Full and Open Competition:

Requirement is not suitable for competition among all other interested parties at this time. This is due to the amount of time it requires to credential the physicians and the process their background checks. If there are no current veteran primary care clinics that meet those specific requirements, then this would truly cause undue harm to the patients and the Government if not acquired from the current contractor, C R & Associates, at this time and as stated in Paragraph 5 above.

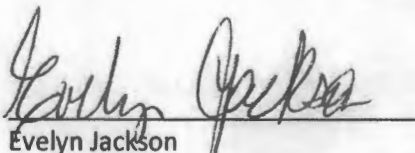

10. Listing of Sources that Expressed, in Writing, an Interest in the Acquisition:

C R & Associates

11. A Statement of the Actions, if any, the Agency May Take to Remove or Overcome any Barriers to Competition before Making subsequent acquisitions for the supplies or services required:

The Government will continue processing the long-term competitive requirement, which is currently in the MSO solicitation review phase through completion and contract award.

12. Requirements Certification: I certify that the requirement outlined in this justification is a Bona Fide Need of the Department of Veterans Affairs and that the supporting data under my cognizance, which are included in the justification, are accurate and complete to the best of my knowledge and belief.
