

## **Door Replacement – Large Circle (538-12-106)**

### **Door Signage clarification**

Revise note Q of revised drawings to read:

Provide new signage of aluminum construction with framing, lettering, mounting brackets and components for complete installation at doors indicated. Signs provided will match existing graphics and dimensions, but will not measure less than nine inches by nine inches. Mount new signage adjacent to door where practicable. In addition to painted graphics provide Braille characters meeting all ADA requirements as required. Submit signage to the COTR for review prior to fabrication. Verify all conditions in the field. See Door Schedule.

Total number of signs:

Aluminum: 45

Stickers: 25

See figures 1-10 on following sheets for photo representations of typical existing signs to be replaced.
