

**JUSTIFICATION FOR BRAND NAME ONLY AWARDS IAW FAR 13.106-1
(OVER MICRO-PURCHASE THRESHOLD(\$3K) BUT NOT EXCEEDING THE SAT (\$150K))**

IAW FAR13.104, COs must promote competition to the maximum extent practicable to obtain supplies and services from the source whose offer is the most advantageous to the Government, considering the administrative cost of the purchase. When competition is not practicable, IAW FAR13.106-1(b), COs solicit from a single source for purchases not exceeding the simplified acquisition threshold. COs may solicit from one source if the CO determines that the circumstances of the contract action deem only one source reasonably available (e.g., urgency, exclusive licensing agreements, brand-name or industrial mobilization). IAW FAR13.106-3(b)(3), COs are required to include additional statements *explaining the absence of competition* (see 13.106-1 for brand name purchases) if only one source is solicited and the acquisition does not exceed the simplified acquisition threshold (does not apply to an acquisition of utility services available from only one source) or supporting the award decision if other than price-related factors were considered in selecting the supplier. This template when completed can be used to document single source awards IAW FAR13.106-3(b)(3). Note: Statements such as "only known source" or "only source which can meet the required delivery date" are inadequate to support a sole source purchase.

N/A

2. BRIEF DESCRIPTION OF SUPPLIES OR SERVICES REQUIRED AND THE INTENDED USE:
Stryker Hip Arthroscopy instrument set to be used in orthopedic surgery.

3. UNIQUE CHARACTERISTICS THAT LIMIT AVAILABILITY TO ONLY ONE BRAND, WITH THE REASON NO OTHER SUPPLIES OR SERVICES CAN BE USED:

These instruments will be used in orthopedic arthroscopic hip surgery in the operating room. It is proprietary technology and only authorized distributors are authorized to sell the products. The product is not interchangeable with any other equipment from other suppliers. It is a cost savings to add this Stryker instrument set to the already existing Stryker sets that are used with the Stryker equipment. The VA already has the Stryker primary component of the parts for surgery. Another type of supply would need to be approved by supply for stocking purposes due to storage space issues. New equipment would require training be conducted for the doctor and the staff to ensure the sterilization processes and use are being conducted properly. Another brand would also require new disposables which is an additional cost to the government.
