PART 2 – PRODUCTS

2.1 ACCEPTABLE MANUFACTURERS

The wandering resident alarm system specified herein shall be Model Universal ID products, as manufactured by Secure Care Products, Inc. System shall be compatible with transmitter part numbers A07300940 and A21350941 which are currently stocked by the SPD suppliers here at the VA in North Little Rock, Arkansas and Little Rock, Arkansas. Additionally, the software and hardware shall be compatible with the SC 40 Secure Care Wanderguard ID system already in use in different wards at NLR and LR campuses. The system shall allow interfacing of our current "Identive" PACS/card access system such as in

use for emergency situations in bldg.. 170 on ward 1E and shall work with transmitters already in use.

All manufactured products shall meet with all required FCC, CE, C Tick, NFPA, and Listed Device and System approvals.

Products listed herein shall consist of, but not limited to, adult transmitters, Model Universal ID Wandering Resident/Access Control Exit Panel (located at each exit location requiring restricted access, local alarm, means of alarm reset, exit status, and electro-magnetic lock controller, authorized escort of monitored residents without alarm), remote PC with 19" monitor (provide Resident Identification and alarm notification of specified exit locations), External Receiver (located at each exit requiring additional wandering resident transmitter monitoring).

2.2 BASIC OPERATION

When a wandering resident wearing an adult transmitter (known as a “monitored resident”) approaches a monitored exit location, the transmitter’s pulsed signal shall trigger a microprocessor controlled software response to lock or arm the exit location, the transmitter’s pulsed signal shall trigger a microprocessor controlled software response to lock or arm the exit location.

When an alarm condition exists, it shall not be possible to reset an exit location in alarm if a transmitter is present and door is open.

Model Universal ID Panels shall acknowledge each transmitter by illuminating the Person near door LED display and Door Armed LED display and the ID of the wandering resident. A local piezo sounder shall emit a unique audible tone in alarm condition.

Any “monitored resident” requiring access through a monitored exit, shall be accompanied by a facility staff member by use of the system escort code. This escort code shall allow access through a monitored exit without an alarm condition for an adjustable period of time (factory set for 30 seconds). If the monitored resident passes through the exit without authorized access, the exit location shall alarm locally and at the remote nurse station annunciator displaying the ID of the wandering resident. The alarm condition shall remain until a staff member reaches the exit, retrieves the resident, and resets the alarm condition by means of a keypad reset code. If a monitored resident approaches a monitored exit location but does not proceed through the exit, the exit shall display a red LED. No alarm shall sound locally or remotely unless the exit is breached.

If an authorized exit/entry code has been entered into the exit panel keypad, the monitored exit location shall automatically begin monitoring activity after a preset time limit of 30 seconds or once the door closes (whichever comes first). This is known as the “Anti-

Tailgate Feature”. Prevention of unauthorized exit of monitored residents through monitored exit is maintained in this manner. The Wandering Resident Alarm System shall employ safe guards against radio frequency interference and system false alarms. These safeguards shall include but not be limited to the following:

- An on-board “threshold” control (operated via firmware through the keypad on the face of the controls) shall be used to adjust the sensitivity of the microprocessor to compensate for a high ambient noise floor and detection range adjustment.
- Impedance control for producing maximum power transfer from antenna coils to microprocessor.
- Microprocessor based receiver allows more accurate discrimination of transmitter signal.

The Wandering Resident Alarm System shall trigger an alarm condition only when both the door is open and an adult transmitter is within adjustable detection range from the door front or if the panel is set to PM Mode. Once the alarm condition is triggered, the system shall remain in alarm until the door is closed and an authorized staff member manually resets exit panel. The remote alarm annunciator called Sentry shall be located in a central nursing location and can be added to five additional computers on the network. The remote annunciator shall identify the location of the alarm event and display the ID of the wandering resident. Alarm and delayed egress conditions are presented with visual LED displays, as well as a unique audible alarm tone.

Each door shall have its status monitored by a set of normally closed magnetic door contacts mounted to the door and the doorframe. Double door exits shall have two sets of contacts wired in series to monitor each door individually. The magnetic door contacts shall prevent the exit panel and remote annunciator from alarming if the door is closed. The system shall alarm if the door is open, panel is in PM Mode or if an adult transmitter is present.

Multiple dry contact outputs shall provide various means of interface for peripheral devices (i.e.; closed circuit television camera) or system integration.

All exit panels shall have battery backup for emergency power supply in case of AC power loss. Each exit shall remain operational and retain all programmed memory.

2.3 BASIC SYSTEM COMPONENTS

Adult Transmitters: Transmitters shall be “true active” type and shall utilize current state-of-the-art surface mount technology. The transmitter operating frequency shall be 4.7 Mhz. Transmitters shall be lightweight, water tight, and constructed of durable polycarbonate plastic. The transmitter shall have an expiration date engraved into the side and part number engraved into the bottom. Battery type shall be long life lithium. The

transmitter shall be attached to the wanderer with a hypoallergenic adjustable strap.

Model Universal ID Exit Panel: Exit panel shall be a microprocessor based control unit. Exit panel shall display door status via green and red LED display and on-board sounder. The exit panel shall display a red “armed” LED when a wandering resident transmitter is within adjusted range of monitored exit or panel is programmed to be locked and shall provide an audible alarm if door is breached. System shall be capable of being operationally setup to work with door constantly locked or setup so it locks when a particular patient is within the required distance. Battery back up (9-volt nickel-hydride) shall be provided to maintain operation during temporary AC power failure. A fire alarm interface shall be provided for compliance with NFPA-101 Life Safety Code when interfaced with electro-magnetic locks. Exit panel shall provide perimeter alarm and access control functions by arming/locking a door during the programmable hours and alarming during unauthorized exit/entry. Unit shall provide built in clock to keep time of day for control functions. External keypad connector shall be provided for increased ease of use by staff. Push button interface shall be provided for high traffic areas. User programmable escort times in one second intervals for up to 90 seconds. Exit panel shall provide user programmable primary, secondary and tertiary access/reset codes for authorized staff members. Exit panel shall be surface or flush mountable. Faceplate shall be constructed of ABS. Connections shall be of screw down type. Four dry contact outputs shall be for system integration. Relay specification shall be a maximum of 30 volts dc and 1 amp maximum of current. System shall have pm mode capability.

Remote PC Server with 19” Monitor: the server with monitor shall provide a remote display for all monitored exits. (o) *Warranty.* The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

(p) *Limitation of liability.* Except as otherwise provided by an express warranty, the Contractor will not be liable to the Government for consequential damages resulting from any defect or deficiencies in accepted items.

(1) Unless exempted by an addendum to this contract, the Contractor is responsible during performance and through final payment of any contract for the accuracy and completeness of the data within the SAM database, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the SAM database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the SAM database to ensure it is current, accurate and complete. Updating information in the SAM does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(2)(i) If a Contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in FAR subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to (A) change the name in the SAM database; (B) comply with the requirements of subpart 42.12; and (C) agree in writing to the timeline and procedures specified by the responsible Contracting Officer. The Contractor must provide with the notification sufficient documentation to support the legally changed name.

(ii) If the Contractor fails to comply with the requirements of paragraph (t)(2)(i) of this clause, or fails to perform the agreement at paragraph (t)(2)(i)(C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the SAM information that shows the Contractor to be other than the Contractor indicated in the contract will be considered to be incorrect information within the meaning of the "Suspension of Payment" paragraph of the electronic funds transfer (EFT) clause of this contract.

(3) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the SAM record to reflect an assignee for the purpose of assignment of claims (see Subpart 32.8, Assignment of Claims). Assignees shall be separately registered in the SAM database. Information provided to the Contractor's SAM record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be considered to be incorrect information within the meaning of the "Suspension of payment" paragraph of the EFT clause of this contract.

(4) Offerors and Contractors may obtain information on registration and annual confirmation requirements via SAM accessed through <https://www.acquisition.gov>.

(u) *Unauthorized Obligations*.

(1) Except as stated in paragraph (u)(2) of this clause, when any supply or service acquired under this contract is subject to any End User License Agreement (EULA), Terms of Service (TOS), or similar legal instrument or agreement, that includes any clause requiring the Government to indemnify the Contractor or any person or entity for damages, costs, fees, or any other loss or liability that would create an Anti-Deficiency Act violation (31 U.S.C. 1341), the following shall govern:

(i) Any such clause is unenforceable against the Government.

(ii) Neither the Government nor any Government authorized end user shall be deemed to have agreed to such clause by virtue of it appearing in the EULA, TOS, or similar legal instrument or agreement. If the EULA, TOS, or similar legal instrument or agreement is invoked through an "I agree" click box or other comparable mechanism (e.g., "click-wrap" or "browse-wrap" agreements), execution does not bind the Government or any Government authorized end user to such clause.

(iii) Any such clause is deemed to be stricken from the EULA, TOS, or similar legal instrument or agreement.

(2) Paragraph (u)(1) of this clause does not apply to indemnification by the Government that is expressly authorized by statute and specifically authorized under applicable agency regulations and procedures.

(v) *Incorporation by reference.* The Contractor's representations and certifications, including those completed electronically via the System for Award Management (SAM), are incorporated by reference into the contract.

SECTION E - SOLICITATION PROVISIONS

E.1 52.212-1 INSTRUCTIONS TO OFFERORS—COMMERCIAL ITEMS (JAN 2017)

(a) *North American Industry Classification System (NAICS) code and small business size standard.* The NAICS code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet (SF 1449). However, the small business size standard for a concern which submits an offer in its own name, but which proposes to furnish an item which it did not itself manufacture, is 500 employees.

(b) *Submission of offers.* Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show—

- (1) The solicitation number;
- (2) The time specified in the solicitation for receipt of offers;
- (3) The name, address, and telephone number of the offeror;
- (4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;
- (5) Terms of any express warranty;
- (6) Price and any discount terms;
- (7) "Remit to" address, if different than mailing address;
- (8) A completed copy of the representations and certifications at FAR 52.212-3 (see FAR 52.212-3(b) for those representations and certifications that the offeror shall complete electronically);
- (9) Acknowledgment of Solicitation Amendments;
- (10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and
- (11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) *Period for acceptance of offers.* The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) *Product samples.* When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.

(e) *Multiple offers.* Offerors are encouraged to submit multiple offers presenting alternative terms and conditions, including alternative line items (provided that the alternative line items are consistent with subpart 4.10 of the Federal Acquisition Regulation), or alternative commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) Late submissions, modifications, revisions, and withdrawals of offers.

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and—

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for quotes, it was the only quote received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) *Contract award (not applicable to Invitation for Bids)*. The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary.

The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) *Multiple awards.* The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(i) Availability of requirements documents cited in the solicitation.

If the Offeror does not have a unique entity identifier, it should contact the entity designated at www.sam.gov for unique entity identifier establishment directly to obtain one. The Offeror should indicate that it is an offeror for a Government contract when contacting the entity designated at www.sam.gov for establishing the unique entity identifier.

(k) *System for Award Management.* Unless exempted by an addendum to this solicitation, by submission of an offer, the offeror acknowledges the requirement that a prospective awardee shall be registered in the SAM database prior to award, during performance and through final payment of any contract resulting from this solicitation. If the Offeror does not become registered in the SAM database in the time prescribed by the Contracting Officer, the Contracting Officer will proceed to award to the next otherwise successful registered Offeror. Offerors may obtain information on registration and annual confirmation requirements via the SAM database accessed through <https://www.acquisition.gov>.
