

JUSTIFICATION FOR SINGLE SOURCE AWARDS IAW [FAR 13.106-1](#)
(OVER MICRO-PURCHASE THRESHOLD(\$3.5K) BUT NOT EXCEEDING THE SAT (\$150K))

IAW [FAR13.104](#), COs must promote competition to the maximum extent practicable to obtain supplies and services from the source whose offer is the most advantageous to the Government, considering the administrative cost of the purchase. When competition is not practicable, IAW [FAR13.106-1\(b\)](#), COs solicit from a single source for purchases not exceeding the simplified acquisition threshold. COs may solicit from one source if the CO determines that the circumstances of the contract action deem only one source reasonably available (e.g., urgency, exclusive licensing agreements, brand-name or industrial mobilization). IAW [FAR13.106-3\(b\)\(3\)](#), COs are required to include additional statements **explaining the absence of competition** (see [13.106-1](#) for brand name purchases) if only one source is solicited and the acquisition does not exceed the simplified acquisition threshold (does not apply to an acquisition of utility services available from only one source) or supporting the award decision if other than price-related factors were considered in selecting the supplier. This template when completed can be used to document single source awards IAW [FAR13.106-3\(b\)\(3\)](#). Note: Statements such as "only known source" or "only source which can meet the required delivery date" are inadequate to support a sole source purchase.

2. BRIEF DESCRIPTION OF SUPPLIES OR SERVICES REQUIRED AND THE INTENDED USE:

The Flexible Reamer set is used for Intra-Medullary (IM) Nail procedures. The IM nail is a metal rod forced in to the medullary cavity of a bone. IM nails are used to treat fractures of the long bones of the body. It is also sometimes used for Total Knee and hip procedures which are performed at this facility regularly. However, not having this set available means that no Intra-Medullary (IM) Nail procedures can be done.

3. UNIQUE CHARACTERISTICS THAT LIMIT AVAILABILITY TO ONLY ONE SOURCE, WITH THE REASON NO OTHER SUPPLIES OR SERVICES CAN BE USED:

- It is compatible with other DePuy Synthes implants sets we regularly use for surgery, as well as other vendor brands.
- The components in this set are proprietary to Depuy Synthes and the staff at this facility has been trained with the use of the DePuy Synthes Flexible Reamer Set

This facility is currently doing Orthopedic surgeries weekly and have several cases scheduled per week. This is the reason that this instrument set is being requested. It is requested that these DePuy Synthes instruments be purchased to match the existing Orthopedic sets and equipment. Another reason that this is specific to this company is the quality of the instrumentation (curves, angles, sharpness/precision of tips). This facility needs to be equipped with this instrumentation as soon as possible.

4. DESCRIPTION OF MARKET RESEARCH CONDUCTED AND RESULTS OR STATEMENT WHY IT WAS NOT CONDUCTED:

A search was performed on the NAC to find comparable instrumentation on contract; however the search did not reveal any orthopedic instrumentation that was within the specifications noted. There is an expectation of obtaining two or more SDVOSB vendors offering this brand name product and it will therefore be set-aside.

5. Contracting Officer's Certification: *Purchase is approved in accordance with FAR13.106-1(b). I certify that the foregoing justification is accurate and complete to the best of my knowledge and belief. Note: COs are required to make a determination of price reasonableness IAW FAR 13.106-3. See the [Commercial Supply and Service SOP](#) for Price Reasonableness templates.*
