

1) Floor Plans provided in a separate email

2) Painting of door frame is only included for Item 2, "Mental Health Suites"

-20 door frames total (3 double-doors, 17 singles)

-Contractor to paint entire frame—inside and outside.

-Do not bid on painting door frames in other areas (i.e. not listed on the SOW)

3) "General Requirements" is a brief overview of the project. "Detailed Requirements" provides additional information for the items in "General Requirements". No additional work beyond what is listed in "Detailed Requirements" shall be included.

4) Contractor will not be asked to provide work for quantities beyond what is listed in the SOW. Specifically, for Item 5, "Patch and paint all walls within CICU," work will be limited to approx. 3,000 s.f. of painting if location is changed.

5) If location of work included in Item 5, "Patch and paint all walls within CICU," is changed, COTR will provide as much notification to Contractor as necessary. COTR will provide a written request to Contractor in advance of any changes.

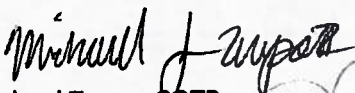

If location is changed, work methods (with regards to infection control measures or other requirements) will remain as stated and required in the SOW.

6) For Item 3, "Install wall protection in corridors": material listed in the SOW shall serve as a guideline. An approved equal will be acceptable, provided that it meets similar requirements to that listed in the SOW and specifications (size, shape, & material)

For Item 1, "Replace all wall protection...", please see VA Specification 102600 for material requirements.

7) Contractor weekend work hours will not be restricted—24 hour access will be provided on request. The VA will require at least 48 hours notice (two full business days) prior to any work starting for planning purposes.

8) Do not include the replacement of cove base for Items 3 & 5. Only include items listed in the SOW.

Michael Trupo, COTR
