

# ***DRAFT DOCUMENT***

## **Salient Characteristics**

**Market – TBD**

**Brand Name Product(s) – See below**

**To be considered for evaluation, offered items must meet the following salient characteristics of the brand name item(s):**

### **1. 18” HD Speech-Generating Device**

Shall be equivalent to the Brand Name Item: Zuvo 18 HD Speech-Generating Device

Equivalent offers shall meet the required characteristics of the brand name item, which are listed as follows:

- 1.1. High definition monitor/computer system that provides speech generating technology known generally as an Alternative & Augmentative Communication (AAC) Device
- 1.2. Screen size not smaller than 18”, not larger than 20”, with high-definition display
- 1.3. Maximum Weight: 6.75 lbs
- 1.4. 6 hours of battery life (required so it does not have to plugged in at all times)
- 1.5. Protective Case
- 1.6. Vocabulary/Page Set Options: AlphaCore, PODD, TTMT Proprietary, Vocabulary/Page Sets, WordPower software
- 1.7. Integrated high quality amplified speakers
- 1.8. Front/rear camera
- 1.9. Mounting plate for the 18” mounting AAC device
  - 1.10. Shall be capable for use as a wheelchair mount
  - 1.11. Shall be capable for use in a floor mount (pedestal) configuration;
- 1.12. Symbol Libraries: SymbolStix, PCS, Widget & Snaps
- 1.13. Operating System: Windows 8

### **2. 12” HD Speech-Generating Device**

Shall be equivalent to the Brand Name Item: Zuvo 12 HD Speech-Generating Device

Equivalent offers shall meet the required characteristics of the brand name item, which are listed as follows:

- 2.1. High definition monitor/computer system that provides speech generating technology known generally as an Alternative & Augmentative Communication (AAC) Device
- 2.2. Screen not larger than 12”, not smaller than 10”, with high-definition display
- 2.3. Maximum Weight: 3.5 lbs (need for mounting ability – too heavy and it would be damaging to wheelchairs, beds and tables)
- 2.4. 6 hours of battery life (required so it does not have to plugged in at all times)
- 2.5. Protective Case
- 2.6. Alternative Access: touch, switch scanning and head tracking access
- 2.7. Vocabulary/Page Set Options: AlphaCore, PODD, TTMT Proprietary Vocabulary/Page Sets, WordPower software
- 2.8. Integrated high quality amplified speakers
- 2.9. Front/rear camera
- 2.10. Mounting plate for the 12” mounting AAC device

## ***DRAFT DOCUMENT***

- 2.10.1. Shall be capable for use as a wheelchair mount
- 2.10.2. Shall be capable for use in a floor mount (pedestal) configuration;
- 2.11. Symbol Libraries: SymbolStix, PCS, Widget & Snaps
- 2.12. Operating System: Windows 8

### **3. Eye-Tracking Camera**

Shall be equivalent to the Brand Name Item: Zuvo Eyespeak Camera

Equivalent offers shall meet the required characteristics of the brand name item, which are listed as follows:

- 3.1. Eye-tracking camera that can be used with one or both eyes as it tracks the reflection on retina and lens of the individual's eyes
  - 3.1.1. 1-16 point calibration
  - 3.1.2. Binocular & monocular tracking
- 3.2. Alternative Access: touch, switch scanning and head tracking access
