

Pre-Bid Site Walk at PPNC
9 May 17

Pre-Bid Meeting started at 10:00, ending at 10:55.

- It was specifically stated that any statements made at the Pre-Bid override the RFP. RFP governs. Any questions need to be submitted in writing to be made a formal part of the contract documents as an Amendment.
- George Williams introduced the government team and briefed the pertinent contract requirements—RFP and amendments, submit questions in writing, question cutoff, proposal submission requirements, proposal due date.
- Bryan Bodner briefed the pertinent project requirements and conducted the site walk explaining where the features and facilities were approximately laid out.

Statements made by the VA at the outset:

1. VA expressed importance of adequate Erosion and Sediment Control Plan execution (consistent with Storm Water Pollution Prevention Plan and contract drawings/specs) to prevent potential Notices of Violation from county and state agencies.
2. Water supply provided by WWSD. Electric supply provided by MVEA. Contractors will be required to connect to these sources and provide distribution to site. Details are in the plans and specs and additional clarification will be provided as necessary.
