

**REQUEST FOR INFORMATION (RFI)  
VA250-17-B-0271**

PROJECT NUMBER:	655-14-105	Please ensure that before submitting questions or requests for clarification that you thoroughly read the solicitation, specifications, drawings and other pertinent documents. When submitting questions on this project the Government requires contractors to specifically identify the specification and/or solicitation section(s) or drawing number(s) in reference to the question or request for clarification submitted. No question or request for clarification will be answered by the Government unless the above requirements are met. Failure to comply may prevent the Government from responding in a timely manner.
PROJECT TITLE:	Mixing Valve Med Gas Install	
PROJECT LOCATION:	Department of Veterans Affairs Aleda E. Lutz Medical Center 1500 Weiss Street Saginaw, MI 48602

RFI NO.:	DATE:	SPEC/DWG. REFERENCE:
REPLY NEEDED BY:		

**INFORMATION NEEDED:**

At the walk through it was mentioned that they would want a majority of the work to take place during “normal” shift. The documents indicate however that corridors are to be open between 6am and 6pm. Can work take place in the corridors during that time as long as people can get through or does all work have to take place during off hours?

**REPLY:**

This project will require close coordination with nursing staff; the work will be coordinated to meet the needs of the patients and staff first. Some work will need to be accomplished during afternoons, but it is expected that the majority of the work in building 22 will happen during day shift.
