

**VA701-17-R-0045 SAN DIEGO BASEMENT WATER LEAK DESIGN TECHNICAL QUESTIONS AND VA RESPONSE TRACKING SHEET**

<b>ITEM NO.</b>	<b>DATE QUESTION RECEIVED</b>	<b>DATE QUESTION ANSWERED</b>	<b>QUESTION</b>	<b>GOVERNMENT RESPONSE</b>
1.	5-15-2017	5-23-2017	After reading the solicitation for the “Basement Water Leak Design project”, could you clarify if you’re looking for a ‘full design team’ to be presented or just the Architect, the prime?	This project requires a full design team to complete the project. The prime firm shall be an architect under NAICS 541310.
2.	5-17-2017	5-30-2017	We see that there is a requirement for all disciplines to be licensed in CA. We can understand possibly special requirements for Structural due to seismic design in CA, but we do not see how all other disciplines can be required to have a CA specific license requirement as the FAR states licensed in "a state or Puerto Rico". Could you enlighten us on this specific requirement and if it is supported by the FAR and if we need to consider indicating compliance as we structure our team?	A license in one of the US states is required.
3.	5-18-2017	5-30-2017	For the Equipment Specialist Consultant, what type of equipment is anticipated?	Typical equipment such as furniture, fixtures, refrigeration equipment, dispensers, telephones, computers, printers, etc.
4.	5-18-2017	5-30-2017	Is any Structural Design anticipated as a part of the scope?	No.
5.	5-23-2017	5-23-2017	Please clarify the Period of Performance for the design of this project. Is 150 calendar days correct?	No. The Period of Performance should be 90 calendar days from issuance of award.
