1		<p>DXA TRABECULAR BONE SCORE</p> <p>TBS iNsign® (Horizon System only)</p> <p>TBS iNsign is a unique DXA application to assess bone micro-architecture in routine clinical practice. TBS – Trabecular Bone Score – is measured directly from DXA scans in one click and so the clinician may now integrate micro-architecture in fracture risk evaluation. TBS is the missing link in osteoporosis diagnosis, fracture prognosis and patient's follow-up.</p>
