## ACUSON SC2000 ultrasound system

All items listed below are included for this system:

Extended  
Price

Qty	Part No.	Item Description	
1		<b>SC2000 PRIME Config</b> The base SW and HW for Release 4.0 system in PRIME configuration. The software and hardware level will support all Release 4.0 standard imaging and advanced applications related to 2D and 3D imaging, along with true volume TEE imaging capabilities	
1		<b>SC2000 4.0 3D Workflow Solution</b> The bundle provides a feature rich 3D configured ACUSON SC2000 ultrasound system with 4V1c transthoracic transducer, 4Z1c matrix array transducer along with Native TEQ dynamic ultrasound technology (NTEQ), eSie Measure workflow acceleration package, eSie Left Heart™ Measurement Package, eSie LVA Volume LV analysis package and eSie PISA volume analysis package as part of the standard configuration.	
1		<b>SC2000 4.0 3D SW</b> Base software to support all Release 4.0 standard imaging and advanced applications related to 2D and 3D imaging.	
1		<b>SC2000 3D TEE Valve Quant Pkg</b> The bundle includes Z6Ms true volume TEE transducer and eSie Valves™ advanced analysis package. Z6Ms is a matrix array transducer with active electronics that enables true volume transesophageal imaging for every heartbeat. eSie Valves package provides accelerated workflow to visualize and quantify mitral and aortic valve anatomy. Software tools can detect anatomic models of the aortic and mitral valves in an automated manner utilizing Siemens knowledge-based technologies. Software offers static or dynamic models with accompanying geometric measurements. This item is pending shipment.	
1		<b>SC2000 4.0 eSie Stress Echo</b> The Stress Echo application provides tools for ECG-triggered acquisition, display, selection, comparison, evaluation and archiving of multiple cardiac loops during various stages of a Stress Echo examination.	
1		<b>SC2000 eSie VVI 3.0</b> syngo Velocity Vector Imaging (VVI) is an advanced 2D quantitative tool for assessment of global and regional myocardial muscle and motion mechanics. Visual and quantitative data output include velocity, strain, strain rate, ejection fraction and volume. Numerical data export via removable media.  Available with Later Software Release.	
1		<b>Aux CW Transducer</b> 2.0 MHz Non-imaging Doppler transducer for transthoracic adult and pediatric continuous wave spectral Doppler echocardiography.

Price**

Qty	Part No.	Item Description	
1		<b>SC2000 Storage Tray</b> Storage tray for miscellaneous imaging/scanning supplies such as towels, gel, and electrodes that reside on the back of the system.  The tray is configurable so the tray sections may become larger or smaller based on individual user's need.	
1		<b>SC2000 Wireless Readiness</b> Includes the hardware and software needed to enable wireless capabilities on the system	
1		<b>SC2000 Gel Warmer</b> The gel warmer includes a power supply.	
1		<b>Stress Echo Ext/Adapter Cables</b> Sequoia and CV70 stress echo adapter cables.	
1		<b>Leakage Test Set, V5M, V7M, V7B</b> Leakage Current Tester,V5M	
1		<b>SC2000 4.0 Cardiac Base System</b>	
1		<b>SC2000 4.0 Operating Sys, English</b>	
1		<b>SC2000 English keyboard</b>	
1		<b>115V Power Supply SC2000</b>	
1		<b>NTSC Video Interface SC2000</b>	
1		<b>Elevate Trade In Promotion</b> Trade-in value is valid for forty-five (45) days from the date of the quotation. After that time it must be revalued.  The trade-in equipment shall be free and clear of all liens, encumbrances, security interests, assessments, rights of distraint and any other third party claims. Purchaser shall provide Siemens or its designated dealer or agent with access to the trade-in equipment within 48 hours after installation of the new equipment. Title and risk of loss to the trade-in equipment shall pass to Siemens or its designee upon installation of the purchased equipment at the Purchaser's facility. In the event that access to the trade-in equipment is denied for more than 30 days after shipment of the new equipment, then the Purchaser shall pay to Siemens the amount of ten (10) percent of the total trade in value including Elevate discounts (no less than ) for each month, or part thereof, that access is denied. In addition, in the event that the trade-in equipment does not meet manufacturer's operating specifications or is not otherwise in the condition as stated in the trade-in specification sheet at the time of trade-in, or in the event that any trade-in items are not returned or otherwise made available to Siemens or its designee, then Purchaser shall be invoiced and shall pay for any missing or damaged items/equipment, or the trade-in value set forth in this Quotation shall be adjusted in Siemens' sole discretion	
1		<b>Ultrasound Apps Training 2 days included</b> Two (2) Days System Installation Applications Training Two days on-site general system installation applications training to include basic or advanced training on systems and options. Extent and objective of training will be determined with the site prior to the training event. Specific options may require one additional no charge applications day. Additional training may be purchased.	
1		<b>Ultrasound Apps Training 1 day included</b> One (1) Day System Installation Applications Training One day on-site general system installation applications training to include basic or advanced training on system and options. Extent and objective of training will be determined with the site prior to the training event. Specific options may require one additional no charge applications day. Additional training may be purchased.	

Qty	Part No.	Item Description	Extended Price
1		<b>US 3D TEE Physician Workshop (No TL)</b> Tuition for (1) government imaging professional to attend Siemens ACUSON SC2000(tm) 3D TEE Physicians Workshop at Siemens Training Center. This physician led workshop includes didactic lectures and hands-on training on ACUSON SC2000(tm) 3D TEE cardiac volumes, post-processing data sets, manipulations and interpretations. Workshop must be scheduled consecutively (Monday - Friday) during standard business hours. Travel and lodging not included.	
1		<b>Ultrasound Apps AddlTrng Subsequent days</b> Additional Applications Training On-site applications training to include basic or advanced training on system and/or options. Extent and objective of training will be determined with the site prior to the training event.	
1		<b>Additional Manuals for Govt-SC2000</b>
