

XR US, VAMC PHILADELPHIA, PA
PO# 642-B60019 TRADE IN

All items listed below are included for this system:

Qty	Part No.	Item Description
1		SC2000 3D Volume ICE solution This bundle provides an integrated solution for the real-time volumetric ICE on the ACUSON SC2000(tm) Ultrasound System. Real-time volumetric ICE guides Electrophysiology procedures and Structural Heart procedures with superior visualization to 2D ICE. It reduces procedure time, reduces fluoroscopy exposure and enables a safer alternative to transesophageal echo by using local vs general anesthesia. This bundle package includes the following items: <ul style="list-style-type: none">• ACUSON SC2000 mainframe system• 2D Swiftlink and 3D Swiftlink V connector• Native TEQ (tissue equalization software)• Cartosound Communication Package
1		4V1c Transthoracic Transducer A vector wide-view array transducer for transthoracic adult and pediatric echocardiography.
5		SC2000 AcuNav V (Box of 2) The ACUSON AcuNav(tm) V volume ultrasound catheter, our first in volume intracardiac echo (ICE), adds the benefit of volume imaging to the existing ACUSON AcuNav technology, dramatically improving and simplifying the visualization of anatomy and tools. In addition to easier device guidance and navigation, the ACUSON AcuNav V catheter allows physicians to optimize the use of local versus general anesthesia for specific procedures. This option includes a box of 2 ACUSON AcuNav V catheters.
1		Manual AcuNav US Catheter English
1		AcuNav V US Catheter English Manual
1		SC2000 4.0 3D SW Base software to support all Release 4.0 standard imaging and advanced applications related to 2D and 3D imaging.
1		SC2000 PRIME Config The base SW and HW for Release 4.0 system in PRIME configuration. The software and hardware level will support all Release 4.0 standard imaging and advanced applications related to 2D and 3D imaging, along with true volume TFF imaging capabilities

PRELIMINARY PROPOSAL

Qty	Part No.	Item Description
1		SC2000 4.0 Operating Sys, English
1		SC2000 English keyboard
1		115V Power Supply SC2000
1		NTSC Video Interface SC2000
1		SC2000 Adv Vascular Imaging Bundle Bundle includes the 9L4, a linear array transducer for peripheral and cerebrovascular imaging and Advanced SieClear(tm) spatial compounding which that offers image quality with unrivaled detail and contrast resolution.
1		SC2000 4.0 Cardiac Base System
1		Ultrasound Apps Training 2 days included Two (2) Days System Installation Applications Training Two days on-site general system installation applications training to include basic or advanced training on systems and options. Extent and objective of training will be determined with the site prior to the training event. Specific options may require one additional no charge applications day. Additional training may be purchased.
1		Elevate Trade In Promotion - + - - - - Trade-in value is valid for forty-five (45) days from the date of the quotation. After that time it must be revalued. The trade-in equipment shall be free and clear of all liens, encumbrances, security interests, assessments, rights of distraint and any other third party claims. Purchaser shall provide Siemens or its designated dealer or agent with access to the trade-in equipment within 48 hours after installation of the new equipment. Title and risk of loss to the trade-in equipment shall pass to Siemens or its designee upon installation of the purchased equipment at the Purchaser's facility. In the event that access to the trade-in equipment is denied for more than 30 days after shipment of the new equipment, then the Purchaser shall pay to Siemens the amount of ten (10) percent of the total trade in value including Elevate discounts (no less than \$1000) for each month, or part thereof, that access is denied. In addition, in the event that the trade-in equipment does not meet manufacturer's operating specifications or is not otherwise in the condition as stated in the trade-in specification sheet at the time of trade-in, or in the event that any trade-in items are not returned or otherwise made available to Siemens or its designee, then Purchaser shall be invoiced and shall pay for any missing or damaged items/equipment, or the trade-in value set forth in this Quotation shall be adjusted in Siemens' sole discretion
