

Following is a summary of the changes included in Amendment #4

Specifications:

1. SPECIFICATION INDEX:
ADD new section **22 07 00, Plumbing Insulation**
2. Section 01 00 00, General Requirements:
REVISE paragraph 1.6, Operations and Storage Areas, by adding new line I.2. to read as follows:

“All equipment, including cranes, must be outfitted with catalytic convertors or use other means such as electric motors to prevent exhaust fumes from entering the intakes of the existing Air Handling Units serving occupied areas of the building. Carbon filters will be required to be installed at any intakes where exhaust fumes may enter.”
3. Section 22 07 00, Plumbing Insulation:
ADD new specifications section 22 07 00 in its entirety, see Amendment.
