

Quality Assurance Surveillance Plan (QASP)

Biomedical Maintenance and Repair Services for the Kansas City, MO VAMC VA255-15-AP-2433

The contractor will be evaluated in accordance with the following:

1. PURPOSE

This Quality Assurance Surveillance Plan (QASP) provides a systematic method to evaluate performance for the stated contract. This QASP explains the following:

- What will be monitored?
- How monitoring will take place.
- Who will conduct the monitoring?
- How monitoring efforts and results will be documented.

This QASP does not detail how the contractor accomplishes the work. Rather, the QASP is created with the premise that the contractor is responsible for management and quality control actions to meet the terms of the contract. It is the Government's responsibility to be objective, fair, and consistent in evaluating performance.

This QASP is a "living document" and the Government may review and revise it on a regular basis. However, the Government shall coordinate changes with the contractor through contract modification. Copies of the original QASP and revisions shall be provided to the contractor and Government officials implementing surveillance activities.

2. GOVERNMENT ROLES AND RESPONSIBILITIES

The following personnel shall oversee and coordinate surveillance activities.

a. Contracting Officer (CO) – The CO shall ensure performance of all necessary actions for effective contracting, ensure compliance with the contract terms, and shall safeguard the interests of the United States in the contractual relationship. The CO shall also assure that the contractor receives impartial, fair, and equitable treatment under this contract. The CO is ultimately responsible for the final determination of the adequacy of the contractor's performance.

Assigned CO: William K. Webb, Supervisory Contracting Officer

Assigned CO: Jeanine Wallace, Contracting Specialist

Organization or Agency: Department of Veteran Affairs, NCO15

b. Contracting Officer's Representative (COR) – The COR is responsible for technical administration of the contract and shall assure proper Government surveillance of the contractor's performance. The COR shall keep a quality assurance file. The COR is not empowered to make any contractual commitments or to authorize any contractual changes on the Government's behalf.

Assigned COR: David Frank, Biomedical Engineering Supervisor

Organization or Agency: Kansas City VAMC

3. CONTRACTOR REPRESENTATIVES

The following employee(s) of the contractor serve as the contractor's program manager(s) for this contract.

Primary: David Frank, Biomedical Engineering Supervisor

Quality Assurance Surveillance Plan (QASP)

4. PERFORMANCE STANDARDS

The contractor is responsible for performance of ALL terms and conditions of the contract. CORs will provide contract progress reports quarterly to the CO reflecting performance on this plan and all other aspects of the resultant contract. The performance standards outlined in this QASP shall be used to determine the level of contractor performance in the elements defined. Performance standards define desired services. The Government performs surveillance to determine the level of Contractor performance to these standards.

The Performance Requirements are listed below in Section 6. The Government shall use these standards to determine contractor performance and shall compare contractor performance to the standard and assign a rating. At the end of the performance period, these ratings will be used, in part, to establish the past performance of the contractor on the contract.

5. METHODS OF QA SURVEILLANCE

Various methods exist to monitor performance. The COR shall use the surveillance methods listed below in the administration of this QASP.

a. DIRECT OBSERVATION. NA

b. PERIODIC INSPECTION. Inspections scheduled and reported quarterly per COR delegation or as needed. Combines elements of validated user complaints and random sampling. Random survey is conducted to solicit user satisfaction. (All inspections and reports will be conducted in compliance with VA Privacy and Information security standards.)

c. VALIDATED USER/CUSTOMER COMPLAINTS. Random survey is conducted to solicit user satisfaction. (All inspections and reports will be conducted in compliance with VA Privacy and Information security standards.) Data is reported quarterly to the Medical Executive Board and Clinical Performance Committee.

d. VERIFICATION AND/OR DOCUMENTATION provided by Contractor. Copies of current certifications and licenses for all contract employees must be provided to COR on an annual basis or as needed.

Quality Assurance Surveillance Plan (QASP)

Measures	PWS Reference	Performance Requirement	Acceptable Quality Level	Method of Surveillance	Incentive/Disincentive
1. Services Provide	1	1. Provide full maintenance both remotely and on site, to include all replacement parts, labor, travel expenses, tools, test equipment and other incidentals necessary to maintain or restore the listed equipment to operating specifications which meet or exceed the manufacturers specifications.	100% compliance Required	Validated User/Custom er complaints and periodic inspection	Incentive: Favorable past performance rating. Disincentive: If less than acceptable, the Government may request a replacement provider for future coverage.
2. Services Provided	1	Contractor will respond by telephone for diagnostic response within 2 hours of notification and must respond on the premises of the Kansas City VAMC Radiation Oncology campus, Overland Park KS within an average of four (4) hours when required for on-site service calls.	100% compliance required	Random inspection of records	Incentive: Favorable past performance rating. Disincentive: If less than acceptable, the Government may request a replacement provider for future coverage.
3. Services Provided	4	Contractor will provide trained personnel for on-site support, labor, travel, tools diagnostic equipment, hardware, firmware, test phantoms, materials, supplies, parts and test equipment necessary to perform all operations in connection with the scheduled and unscheduled on-site services.	100% compliance Required	Verification of proof of training certification and random inspection.	Incentive: Favorable past performance rating. Disincentive: If less than acceptable, the Government may request a replacement provider for future coverage.

Quality Assurance Surveillance Plan (QASP)

4. Services Provided	7	Contractor will provide both scheduled and unscheduled service to repair and/or maintain equipment in a fully functional condition with a ninety-eight percent (98%) uptime guarantee.	100%	Verification of proof calculated on a quarterly basis.	Incentive: Favorable past performance rating. Disincentive: If less than acceptable, the Government may request a replacement provider for future coverage
5. Services Provided	10	The contractor must furnish a detailed field service report, or equivalent, showing work completed, listing all repairs and/or repair parts used to maintain operating efficiency of the equipment.	100%	Verification of proof calculated on a quarterly basis.	Incentive: Favorable past performance rating. Disincentive: If less than acceptable, the Government may request a replacement provider for future coverage.

6. RATINGS

Metrics and methods are designed to determine rating for a given standard and acceptable quality level. The following ratings shall be used:

EXCEPTIONAL:	<p>Performance meets contractual requirements and exceeds many to the Government's benefit. The contractual performance of the element or sub-element being assessed was accomplished with few minor problems for which corrective actions taken by the contractor were highly effective.</p> <p><i>Note: To justify an Exceptional rating, you should identify <u>multiple significant events</u> in each category and state how it was a benefit to the GOVERNMENT. However a singular event could be of such magnitude that it alone constitutes an Exceptional rating. Also there should have been NO significant weaknesses identified.</i></p>
VERY GOOD:	<p>Performance meets contractual requirements and exceeds some to the Government's benefit. The contractual performance of the element or sub-element being assessed was accomplished with some minor problems for which corrective actions taken by the contractor were effective.</p> <p><i>Note: To justify a Very Good rating, you should identify a significant event in each category and state how it was a benefit to the GOVERNMENT. Also there should have been NO significant weaknesses identified.</i></p>
SATISFACTORY:	<p>Performance meets contractual requirements. The contractual performance of the element or sub-element contains some minor problems for which corrective actions taken by the contractor appear or were satisfactory.</p>

Quality Assurance Surveillance Plan (QASP)

	<p><i>Note: To justify a Satisfactory rating, there should have been only minor problems, or major problems the contractor recovered from without impact to the contract. Also there should have been NO significant weaknesses identified.</i></p>
<p>MARGINAL:</p>	<p>Performance does not meet some contractual requirements. The contractual performance of the element or sub-element being assessed reflects a serious problem for which the contractor has not yet identified corrective actions. The contractor's proposed actions appear only marginally effective or were not fully implemented.</p> <p><i>Note: To justify Marginal performance, you should identify a significant event in each category that the contractor had trouble overcoming and state how it impacted the GOVERNMENT. A Marginal rating should be supported by referencing the management tool that notified the contractor of the contractual deficiency (e.g. Management, Quality, Safety or Environmental Deficiency Report or letter).</i></p>
<p>UNSATISFACTORY:</p>	<p>Performance does not meet most contractual requirements and recovery is not likely in a timely manner. The contractual performance of the element or sub-element being assessed contains serious problem(s) for which the contractor's corrective actions appear or were ineffective.</p> <p><i>Note: To justify an Unsatisfactory rating, you should identify multiple significant events in each category that the contractor had trouble overcoming and state how it impacted the GOVERNMENT. However, a singular problem could be of such serious magnitude that it alone constitutes an unsatisfactory rating. An Unsatisfactory rating should be supported by referencing the management tools used to notify the contractor of the contractual deficiencies (e.g. Management, Quality, Safety or Environmental Deficiency Reports, or letters).</i></p>

Quality Assurance Surveillance Plan (QASP)

8. DOCUMENTING PERFORMANCE

a. The Government shall document positive and/or negative performance. Any report may become a part of the supporting documentation for any contractual action and preparing annual past performance using CONTRACTOR PERFORMANCE ASSESSMENT REPORT (CPAR).

b. If contractor performance does not meet the Acceptable Quality level, the CO shall inform the contractor. This will normally be in writing unless circumstances necessitate verbal communication. In any case the CO shall document the discussion and place it in the contract file. When the COR and the CO determines formal written communication is required, the COR shall prepare a Contract Discrepancy Report (CDR), and present it to CO. The CO will in turn review and will present to the contractor's program manager for corrective action.

The contractor shall acknowledge receipt of the CDR in writing. The CDR will specify if the contractor is required to prepare a corrective action plan to document how the contractor shall correct the unacceptable performance and avoid a recurrence. The CDR will also state how long after receipt the contractor has to present this corrective action plan to the CO. The Government shall review the contractor's corrective action plan to determine acceptability. The CO shall also assure that the contractor receives impartial, fair, and equitable treatment. The CO is ultimately responsible for the final determination of the adequacy of the contractor's performance and the acceptability of the Contractor's corrective action plan.

Any CDRs may become a part of the supporting documentation for any contractual action deemed necessary by the CO. See Sample CDR below.

Quality Assurance Surveillance Plan (QASP)

CONTRACT DISCREPANCY REPORT				
1. CONTRACT NUMBER		2. REPORT NUMBER FOR THIS DISCREPANCY		
3. TO: <i>(Contracting Officer)</i>		4. FROM: <i>(Name of COR)</i>		
5. DATES				
a. CDR PREPARED		b. RETURNED BY CONTRACTOR:		c. ACTION COMPLETE
6. DISCREPANCY OR PROBLEM <i>(Describe in detail. Include reference to PWS Directive; attach continuation sheet if necessary.)</i>				
7. SIGNATURE OF COR				Date:
8. SIGNATURE OF CONTRACTING OFFICER				Date:
9a. TO <i>(Contracting Officer)</i>		9a. FROM <i>(Contractor)</i>		
10. CONTRACTOR RESPONSE AS TO CAUSE, CORRECTIVE ACTION AND ACTIONS TO PREVENT RECURRENCE. <i>(Cite applicable quality control program procedures or new procedures. Attach continuation sheet(s) if necessary.)</i>				
11. SIGNATURE OF CONTRACTOR REPRESENTATIVE				Date:
12. GOVERNMENT EVALUATION. <i>(Acceptance, partial acceptance, reflection. Attach continuation sheet(s) if necessary.)</i>				
13. GOVERNMENT ACTIONS <i>(Acceptance, partial acceptance, reflection. Attach continuation sheet(s) if necessary.)</i>				
14. CLOSE OUT

Quality Assurance Surveillance Plan (QASP)

9. FREQUENCY OF MEASUREMENT

a. Frequency of Measurement. The frequency of measurement is defined in the contract or otherwise in this document. The government (COR or CO) will periodically analyze whether the frequency of surveillance is appropriate for the work being performed.

b. Frequency of Performance Reporting. The COR shall communicate with the Contractor and will provide written reports to the Contracting Officer quarterly (or as outlined in the contract or COR delegation) to review Contractor performance.

10. COR AND CONTRACTOR ACKNOWLEDGEMENT OF QASP
