Count on it.

# Sentinel® Central Control

## Central Control

*Sentinel Central Control from Toro® is a powerful system that literally "stands guard" over large irrigation sites. With the ability to control up to 999 field satellites from one location, users have a water management tool that provides reliability, accuracy and water savings.*

### Features & Benefits

#### Simple To Use

Microsoft® Windows-based software – daily operations and scheduling are made quick and easy.

#### Features For Water Management

ET-based watering, flow sensing and optimization, water usage report with historical comparison.

#### Smartphone and Tablet Connectivity

The new Sentinel WMS software package also includes iPhone® and iPad® connectivity for remote programming and alerts on ALL new systems.

#### Multiple Communication Options

Communication options like radio, telephone, fiber optics cellular, and Ethernet can be mixed and matched to meet system requirements.

#### Distributed Programming

Stores irrigation programs in the computer while allowing irrigation control at the satellite level, ensuring the loss of a component does not result in the loss of irrigation across the system.

#### Toro NSN® Support

All centrals come with a minimum of two years of NSN support – unlimited 24-hour toll-free support with 24/7/365 emergency paging

#### Three Choices Of Central Packages

1) Software only; 2) Software and radio communication interface; 3) Central computer, software and radio communication interface.

### iPhone® and iPad® Connectivity
