

Pre-Bid Meeting
FOR
Project 660-17-106
Mechanical SPECT CT

The contractor is to provide all labor, tools, materials, equipment and supervision required to complete the construction of the Station Level Project 660-17-1106, Mechanical SPECT CT at the Salt Lake City Veterans Affairs Medical Center, 500 Foothill Dr., Salt Lake City, Utah 84148.

This requirement is for the installation of a new HVAC system and associated mechanical in Bldg. 1 rooms 1E09, 1E09A, and 1E09B to meet cooling and air exchange requirements for the newly installed Digital Diagnostic Release 4.1 system. The project will include the installation of two Roof Top stand-alone units mounted on concrete pads located outside exterior wall in adjacent courtyard; the forming and pouring of two concrete pads per drawing; and the drilling of two 18 inch holes in exterior wall to accept ductwork from roof top units to rooms 1E09A and 1E09B. Contractor will be responsible for the Installation of ductwork, duct installation, duct heater, and humidifiers to be located in rooms 1E09A and 1E09B. The installation and modification of all electric and electrical systems to support the new HVAC systems. Contractor will be responsible for the protection of all existing finishes, walls, floors, cabinets, doors. Contractor must protect and cover existing scanners and medical equipment. All work will be performed per specifications and drawings.
