

**Extended Installation – Angio #2**  
**VA248-14-R-0887**  
**Phase I RFI's and Responses**  
**RFI's 1 – 9**

1. Please provide a current floor plan for the Angio Suite.  
**See attached PDF drawings.**
2. Please provide the structural drawings for the floor the Current Angio Suite is on.  
**See attached PDF drawings.**
3. Please provide all shop drawings and equipment information available for the angiographic machine that will be provided by the VA.  
**Per solicitation, angiographic machine information is not available at this time**
4. Part III – Proposal Requirements (section G2) indicates that “technical proposals shall not exceed 20 pages”. Please confirm if this page limit applies to Phase I proposals.  
**Yes. Technical proposals for each phase are not to exceed 20 pages.**
5. Factor 4, part 1a (page 15 of the solicitation) indicates that offerors shall submit past safety/environmental information, including “a certification that the bidder/offeror has no more than three serious or one repeat or one willful OSHA or any EPA violations in the past three years”. Factor 4, part 1b indicates that current EMR data is required. Please confirm if an insurance carrier letter will satisfy all requirements for Factor 4, or if OSHA300/300A forms are also required.  
**The OSHA300/300A forms are also required.**
6. Page 1, block 10 of the SF1442 indicates this project is titled “Room Prep – Angio #2”. Page 6 of the solicitation indicates the title is “Extended Installation Angio #2”. Please confirm the correct title.  
**Extended Installation Angio #2**
7. Are as-builts going to be made available in both PDF and CAD formats?  
**PDF**
8. Is an existing air pressure analysis available for the conversion or will an analysis be required for the entire AHU zone of service?  
**Contractor to perform analysis**
9. The RFP, Section C, Technical Proposal Requirements, Factor 1: Technical Qualifications/Experience; Corporate Project Experience – states, “ The Offeror shall demonstrate corporate experience”; however, Factor 3: Past Performance, Item 1, states, “Offeror’s D/B Team (including construction and architect-engineer members”. Please clarify whether Factor 1 should also include relative experience of the Design/Build team, including construction and A/E team members.  
**Please see Factor 1, Paragraphs 1.c. and 1.d.**
