

## **Item # 0001 AirSense 10 Autoset with HumidAir (Part Number 37207)**

### **Features**

- AirSense algorithm automatically adjusts pressure settings based on immediate patient needs
- Advanced Event Detection can differentiate between obstructive sleep apnea or central apnea events, as well as Cheyne-Stokes respiration
- AutoRamp delivers lower pressure until sleep detected and then ramps up to prescribed level
- Expiratory pressure relief (EPR™) maintains the optimal treatment for the patient during inhalation and reduces pressure during exhalation
- Quiet Easy Breathe motor makes for a peaceful sleeping environment
- Optional SmartStart setting begins therapy as soon as you breathe into your mask and stops automatically a few seconds mask is removed
- HumidAir integrated humidification simplifies setting up the device and is compatible with optional Climate Line Air heated tube or slender, lightweight tube
- User friendly controls, intuitive interface and color LCD screen make it simple to navigate menus and customize comfort settings
- Built-in ambient light sensor adjusts the brightness of the screen based on the light in the room and turns off automatically
- AirView feature allows remote monitoring and adjustment by trusted health professionals via built-in wireless system

## **Item # 0002 AirCurve 10 V with HumidAir (Part Number 37211)**

delivers auto-adjusting bilevel PAP therapy for sleep apnea

### **Features:**

- VAuto delivers auto-adjusting bilevel therapy with comfort-enhancing interventions
- Easy-Breathe pressure waveform mimics natural breathing patterns for improved breathing comfort
- Continuous leak management enables reliable delivery of therapy pressure while maintaining patient-device synchrony
- Compatible with up to 15 L/min of supplemental oxygen in S and CPAP mode and 4 L/min in VAuto mode
- HumidAir™ integrated humidifier compatible with optional ClimateLineAir™ heated tube with Climate Control technology

- Quiet Easy-Breathe motor provides peaceful sleeping environment
- Ambient light sensor adjusts LCD display screen brightness and also turns off automatically to minimize distractions
- Built-in wireless system offers easy data transfer and connectivity to medical professionals

### **Item # 0003 AirCurve 10 ST with HumidAir (Part Number 37306)**

bilevel device with backup rate that provides exceptional patient–ventilator synchrony, reducing the work of breathing so patients remain comfortable and well-ventilated.

#### **Features:**

- TiControl
- Climate Control Technology
- HumidAir Humidifier
- VPAP ST
- Pressure Range
- AirView Data Management Service
- SD Card Ready

### **Item # 0004 AirSense 10 Autoset HumidAir (ResMed A10 CPAP machine for lab use) (Part Number 37207)**

#### **Features**

- AirSense algorithm automatically adjusts pressure settings based on immediate patient needs

- Advanced Event Detection can differentiate between obstructive sleep apnea or central apnea events, as well as Cheyne-Stokes respiration
- AutoRamp delivers lower pressure until sleep detected and then ramps up to prescribed level
- Expiratory pressure relief (EPR™) maintains the optimal treatment for the patient during inhalation and reduces pressure during exhalation
- Quiet Easy Breathe motor makes for a peaceful sleeping environment
- Optional SmartStart setting begins therapy as soon as you breathe into your mask and stops automatically a few seconds mask is removed
- HumidAir integrated humidification simplifies setting up the device and is compatible with optional Climate Line Air heated tube or slender, lightweight tube
- User friendly controls, intuitive interface and color LCD screen make it simple to navigate menus and customize comfort settings
- Built-in ambient light sensor adjusts the brightness of the screen based on the light in the room and turns off automatically
- AirView feature allows remote monitoring and adjustment by trusted health professionals via built-in wireless system

### **Item # 0005 ApneaLink XPOD Oximeter Sensor fixation clip ( Part Number 707560)**

Reusable soft sensor (medium) – 3-meter cable

### **Item # 0006 ApneaLink XPOD Oximeter Sensor Clip (part number 22306)**

Device used to get reliable information for sleep apnea.

### **Item # 0007: Alice 6 Lo-Flo Starter Kit (Part Number 1132411)**

USB system connection that allows for simultaneous monitoring of flow and CO2 using a dedicated Pro-Flow cannula. Kit includes: LoFlo C5 Module, LoFlo USB Cable, Sampling Line, 10 Pack, and Cannula 10 Pack)

### **Item # 0008: ActiWatch Spectrum Plus (Part Number 1101894)**

Size: 48mm x 37 mm x 15 mm

Weight: 31 grams (with band)

Battery type Lithium Ion rechargeable

Typical battery life: 60 days

Memory size: 32 Mbits

Recording Time 60 days

Accelerometer type: MEMS

Accelerator sampling rate: 32HZ

Light sensor wavelength range: 400-700 nm

Light measure: Photopic illuminance Irradiance Photon flux

Waterproof

Operating System: Actiware: Windows 8, 7, XP and Vista (32 and 64 bit), Actiware CT: Windows XP Professional; 32 and 64 bit versions of Windows 8 (Professional or Enterprise), 7 (Professional or Ultimate), and Vista (Business or Ultimate)

Computer hardware: UL 60950-1, IEC60950-1 or CSA C22.2#60950-1 certified IT equipment, 2 GHz or higher process clock speed, keyboard and mouse, USB port

USB Compatibility: 2.0 or greater
