ADSYSTEMS
HIGH PERFORMANCE DOORS

SpecADSystems.com

AD Systems exam room sliding doors were specifically designed to meet the rigorous demands of today's lean healthcare medical facilities. Constructed with the highest quality, commercial grade hardware and precision engineered framing system to provide years of trouble-free service.

ADA-compliant operation, along with 'soft-close' technology, ensure that patients of all ages and abilities can easily open and close the door. The AD Systems patent-pending acoustic mitigation system seals all four sides of the door leaf, providing the best possible noise reduction to maintain speech privacy standards.

AD Systems Exam Room Sliding Doors Standard Features:

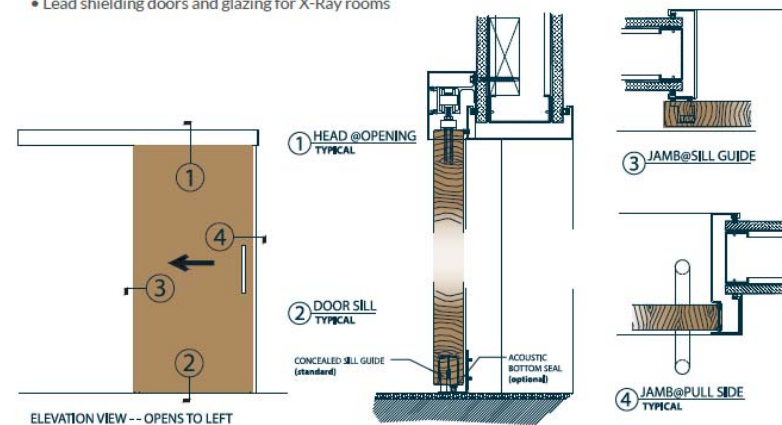

- Space-saving design saves up to 30 sq ft, when compared to a swing door
- Heavy-duty, top-hung roller system for smooth, maintenance-free operation
- Concealed floor guide - no exposed floor track
- Patent-pending acoustic mitigation seals all four sides of the door to achieve speech privacy (*Field test indicates NIC Noise Isolation Class 39 as per ASTM E336-11*)
- ADA-compliant operation
- Soft-close dampening system prevents slamming
- Easy to clean aluminum frame system wraps and protects wall construction

Hardware Options:

- ADA thumb turn lock with occupancy indicator or keyway
- ADA self-latching mortise with thumb turn and egress handle
- Key lock
- Magnetic lock for integration with key card access control

1-3/4 Door Options:

- Flush wood door
- Flush laminate door
- Wood stile and rail door with glass vision lite
- Aluminum stile and rail door with glass vision lite
- Glass units with integral blinds or louvers
- Lead shielding doors and glazing for X-Ray rooms

Note: Manufacturer's specifications are intended as basis of design and not government direction for procurement.
