

## VA247-17-Q-0962, BULK LIQUID OXYGEN DELIVERY

### QUESTION AND ANSWERS

1. Please confirm the Size/capacity of the Main Tank (I did not see it in the RFP)----  
--140 inches
2. Please confirm the Size/capacity of the Reserve Tanks---- 58 inches
3. Please confirm if the existing requirement includes Telemetry Remote monitoring?--- This is monitored by the ECC daily –however the Inventory Management office do manual checks to so they can call the vendor when it reaches the reorder point.
4. Please confirm the average daily usage for the Facility in terms of inches per day? Daily average is based solely on patient care demand.
5. Are there any additional locations that have Bulk Liquid Oxygen requirements (Bulk Tanks) as Page 4 of 51 states (and if so – what are the tanks sizes): NO

5a. This requirement is for bulk liquid oxygen delivery, which includes all rental, replacement/exchange, as well as any needed emergency oxygen delivery service required to be delivered to WJB Dorn VAMC and community based outpatient clinics? These tanks are embedded, however they are vendor owned.
