5. Demonstration that the Contractor's Unique Qualifications or Nature of the Acquisition Requires the Use of the Authority Cited Above (applicability of authority):

As prescribed in VHA Handbook 1143.2, for more than 35 years the CNH Program has maintained two cornerstones: some level of patient choice in choosing a nursing home close to the veteran's home and family, and a unique approach to local oversight of CNHs.

The quality of care for the veteran is accomplished through placement in a nursing home that is in close proximity to where the veteran and his/her family resides. Notably, in the VA's community nursing home program, the veteran's placement decision is made by VA, the veteran, and the veteran's family. The placement decision will be based on established VA contracts in the area. The geographic factor in these circumstances makes this requirement unique and, therefore, not subject to competition.

Vindra Inc., dba Meadowood Nursing Center currently has 3 veterans being treated at their nursing home facility. The nursing home meets VA exclusion review quality of care standards. The nursing home has had a contract with the VA for five years and has consistently provided excellent care to our Veterans. It would cause medical hardship on the patients to move them, may disrupt treatment plans, and may be disruptive to family members if relocated to a different facility.

The current veterans require continued care at the nursing home facility beyond the current contract's expiration date and for an unknown period of time in the future. To avoid disruption to the patients, the VA must enter into a new contract with the current contractor.

6. Description of Efforts Made to ensure that offers are solicited from as many potential sources as deemed practicable:

Vet Biz was queried for CVE businesses under NAICS 623110 in the state of California. Every business found using this search was emailed and none affirmed that they are capable of providing Nursing Home services.

In accordance with FAR 6.305(a), this action will be synopsized at award on the FBO and the justification will be made publicly available.

7. Determination by the Contracting Officer that the Anticipated Cost to the Government will be Fair and Reasonable:

Fair and reasonable pricing will be determined in accordance with FAR 15.403-3. Pricing will be evaluated to be fair and reasonable based on a comparison to the Independent Government Cost Estimate (IGCE) and established Medicare Resource Utilization Group (RUG) rates and or Medicaid by the state of California for nursing home facilities and established VA nursing home rates. The Government estimate was prepared based established Medicaid RUG rates for various levels of care and established VA nursing home rates based on VA national guidelines for determining cost for VA nursing home contracts.

8. Description of the Market Research Conducted and the Results, or a Statement of the Reasons Market Research Was Not Conducted:

The contract specialist conducted market research using Medicare's website for nursing homes, reviewed available acquisition history and searched through the VA's Veteran Information Pages.

9. Any Other Facts Supporting the Use of Other than Full and Open Competition:

VHA Handbook 1143.2 allows for a level of veteran choice in choosing a nursing home close to the veteran's home and family. The geographic factor in these circumstances makes this requirement unique and, therefore, not subject to competition. Since the Veterans are currently residing in the incumbent's facility, the VA does not intend on disrupting their care in order to place them at a different facility as it would not be in the Veteran's best interest.

10. Listing of Sources that Expressed, in Writing, an Interest in the Acquisition:

The incumbent contractor is willing to continue to provide services for the veterans in place.

11. A Statement of the Actions, if any, the Agency May Take to Remove or Overcome any Barriers to Competition before Making subsequent acquisitions for the supplies or services required:

Based on the inherent nature of the service and in line with VA policy where the veteran and his/her family plays a role in determining which nursing home facility will provide treatment for the veteran, the opportunity to increase competition is limited. Notwithstanding the foregoing limitations, the Government intends to post an open and continuous Request for Proposal (RFP) in fiscal year 2018 to increase the number of community nursing home providers, so that when new beneficiaries are brought into the program they will have more available choices thereby increasing competition. This RFP will further publicize the VA's need for nursing homes in certain geographic areas across the VISN. Through these efforts NCO 21 anticipates it will increase the number of eligible nursing homes for its geographic regions.
