**Question: (Explain in detail)**

The gate arm shown in the bid documents at the entrance to the parking garage appears to represent a standard parking garage traffic flow gate arm and not a Crash Arm Gate; however, there is no specific spec provided for a standard parking garage access control gate arm. Please provide a spec for this gate arm or clarify the intent.

---

**Response:**

See spec section 28 13 10 – Single Arm Gate System, paragraph 2.1, for information about the specific requirements for the system and the gate arm.
