0001B	<p>Manufacturer's Maintenance Instructions. The manufacturer shall provide three printed copies of instructions: assembly (if required), use, and maintenance instructions with each delivery. The Maintenance Instructions shall include at a minimum the following:</p> <p>(a) Visual inspection procedures to be followed prior to the setup and use of any unit.</p> <p>(b) Visual inspection procedures to be followed</p>	3	EA

Item	Schedule of Supplies/Services	Quantity	Unit
	<p>after the initial setup and use of a unit to determine its fitness for continued use.</p> <p>(c) General maintenance, such as cleaning, lubrication, and the replacement of unreadable and missing labels/markings, wheels, casters, and rubber leg tips/pads, as recommended by the manufacturer.</p> <p>(d) Instructions to properly tighten and secure (periodically or regularly) all threaded fasteners.</p>		
0001C	<p>For vendors manufacturing their first 36" wide ladder from the attached spec for the VA: Submit QA inspection results of first unit, and the load test results addressed in Attachment 2, Paragraph 3, Construction, whereby individual steps support 300 lbs. plus a 50% overload factor, and pulpit file shelf supports 60 pounds plus a 50% overload factor.) Delivery to coincide with arrival with the first ladder.</p>	1	EA

1.2 Specifications for the ladders will be in accordance with the Federal Records Center Platform Ladder Standard, 11-05-2013; Version 2, 10-14-14; Version 3, 05-23-17, "36 Inch Ladder, Aluminum, Rolling, Platform/Pulpit Type." (Attachment 2 of this product description).

2.0 SCHEDULE FOR DELIVERABLES

Delivery: The RCV has limited personnel and dock space to accept shipments. The maximum quantity of ladders for completion will be no more than 40 within a 60-day time-frame, delivering in quantities of up to 20 each with a minimum of 2-week intervals occurring between delivery dates.

Inspection: Destination

Acceptance: Destination

Free on Board (FOB): Destination

Ship To and Mark For: TBD

2.1. Special Shipping Instructions

Prior to shipping, the Contractor shall notify Site POCs, by phone followed by email, of all incoming deliveries including line-by-line details for review of requirements. The Contractor cannot make any changes to the delivery schedule at the request of Site

POC.

Contractors must coordinate deliveries with Site POCs before shipment of ladders to ensure sites have adequate staff to receive delivery and storage space.

All shipments, either single or multiple container deliveries, shall bear the VA Purchase Order number on external shipping labels and associated manifests or packing lists. In the case of multiple container deliveries, a statement readable near the VA PO number will indicate total number of containers for the complete shipment (ex. "Package 1 of 2"), clearly readable on manifests and external shipping labels.

Packing Slips/Labels and Lists shall include the following:

IFCAP PO # _____ (e.g., 166-E11234. The IFCAP PO number is located in block #20 of the SF 1449.)

Project Description: (e.g., Tier I Lifecycle Refresh)

Total number of Containers: Package ____ of _____. (e.g., Package 1 of 3)

INFORMATION SECURITY CONSIDERATIONS:

This is a non-IT acquisition. The Assessment and Authorization (A&A) requirements do not apply and a Security Accreditation Package is not required.
