

QUESTIONS:

1) There is no real description of the;

- Medication Lockers
- Beds
- Wardrobes
- Nightstands
- Desks

ANSWERS:

- Medication Lockers
 - For 35 people, they aren't actually built in, just wall hung/flush mount. The lockers could be a wood or wood composite, maple finish. The insides would be finished, no shelves or anything- just a box. I have not specified a type of hinge, but it should be tamper proof. They also need a keyless lock (code) entry for each locker. They don't need to be very large either- about 1'x1' would be just fine.
- Beds
- Wardrobes
- Nightstands
- Desks
 - As for the furniture, they should all be wood or wood composite, maple finish. The mattresses should be comfortable but nothing fancy.
 - Beds: 7'x3'3"
 - Nightstand: Approximately 1'6"x1'6"
 - Desk: 4'x2'
 - Wardrobe: Approximately 3' 2 ¼"
