

Price Breakdown

The contractor shall provide the following price breakdown:

- 1. Unarmed Security Guard (Category - II):**
- 2. Breakdown:** Contractor shall submit a price breakdown sheet (in Microsoft Excel Spreadsheet format) which reflects monthly rate and price/cost that makes up the monthly rate (to include labor burden: _____, etc: _____). Breakdown shall reflect how many employees and for how many hours/month per location (e.g. 1 Guard at \$_____ per hour x 2 hours = \$_____ per/day - and - 2 Guards at \$_____ per hour x 10 hours = \$_____) per guard per day. Breakdown shall also show any discounts (e.g. Monthly or Monthly price of \$_____ minus - ____% discount = new Monthly/Monthly price of \$_____). Also, define any miscellaneous items related to price: _____.
Note: Two (2) security guards are required throughout the determined regular hours, the Line Items on the Price/Cost Schedule reflect 0700 HR to 1700 HR; M-F; therefore each guard will work 10 hours each per day = 20 hours per day for pricing purposes.
- 3. After price has been broken down (as requested above), provide a copy of the complete price breakdown-Excel spreadsheet with your offer and attached it to this sheet.**

Note: The Contractor shall transpose (type) the final price/cost (dollar amounts) onto the Price schedule in Section B. Amounts on Section B must not be handwritten, please type amounts.
