

LIMITED SOURCES JUSTIFICATION

ORDER >\$150,000

FAR PART 8.405-6

Acquisition Plan Action ID: VA256-17-AP-12754

- 1. Contracting Activity:** Department of Veterans Affairs, VISN 16, Michael E. DeBakey VA Medical Center. Requisition Number: **580-18-1-255-0031**
- 2. Description of Action:** This acquisition is conducted under the authority of the Multiple-Award Schedule Program ([41 U.S.C. 251](#) and [40 U.S.C. 501](#)). **This is request for Limited Sole Source approval to GE Healthcare.** The action will be awarded as a new requirement. Order against: ☒ FSS Contract Number: **VA797H-17-D-0024/ SPE2D1-17-D-0015**

Name of Proposed Contractor: GE HEALTHCARE

Street Address: 3000 N. Grandview Blvd.

City, State, Zip: Waukesha, WI 53188

Phone: (262)951-9104

- 3. Description of Supplies or Services:** Preventative and corrective maintenance for GE Healthcare equipment located at MEDVAMC. Equipment. GE Healthcare will provide all transportation, parts, labor, software, personnel, travel as required for government GE equipment.

The period of performance shall be base year and four one year options.

The estimated value of the proposed action is Base Year: **\$ 663,809.56**

Option Year 1: \$ 663,809.56

Option Year 2: \$ 663,809.56

Option Year 3: \$ 663,809.56

Option Year 4: \$ 663,809.56

With Options: **\$3,319,047.80**

The National Acquisition Center (NAC) awarded the following contract to GE Healthcare.

GE Healthcare is the original equipment manufacturer (OEM) for the various government equipment listed below.

(4) IDENTIFY THE AUTHORITY AND SUPPORTING RATIONALE (see 8.405-6(a)(1)(i)(A), (B), and (C) or 8.405-6(b)), AND IF APPLICABLE, A DEMONSTRATION OF THE PROPOSED CONTRACTOR'S UNIQUE QUALIFICATIONS TO PROVIDE THE REQUIRED SUPPLY OR SERVICE.

☐ An urgent and compelling need exists, and following the ordering procedures would result in unacceptable delays.

☒ Only one source is capable of providing the supplies or services required at the level of quality required because the supplies or services are unique or highly specialized;

GE is the original equipment manufacturer (OEM) providing service to government equipment.

GE as the OEM possess immediate access to all parts and software necessary to keep the government equipment operation without the risk of third party contractor trying to obtain OEM parts or software. GE is the possess proprietary data they can only provide.

☐ In the interest of economy and efficiency, the new work is a logical follow-on to an original Federal Supply Schedule order provided that the original order was placed in accordance with the applicable Federal Supply Schedule ordering procedures. The original order must not have been previously issued under sole source or limited source procedures.

☒ Items peculiar to one manufacturer:

☒ A patent, copyright or proprietary data limits competition. The proprietary data is: GE (If FAR 8.405-6(a)(2)iii before posting. Do not include specific proprietary data. Only mention the type of equipment, procedure, etc. to show that proprietary supplies or services are being procured.)

GE possess proprietary operating software and maintenance passwords required to repair the various government systems.

☐ These are “direct replacements” parts/components for existing equipment.

☒ The material/service must be compatible in all aspects (form, fit and function) with existing systems presently installed/performing. Describe the equipment/function you have now and how the new item/service must coordinate, connect, or interface with the existing system.

GE is the original equipment manufacturer (OEM) providing service to government equipment. GE as the OEM possess immediate access to all parts and software necessary to keep the government equipment operation without the risk of third party contractor trying to obtain OEM parts or software.

(5) DESCRIBE WHY YOU BELIEVE THE ORDER REPRESENTS THE BEST VALUE CONSISTENT WITH FAR 8.404(d) TO AID THE CONTRACTING OFFICER IN MAKING THIS BEST VALUE DETERMINATION: Service Line (BIO MED) in the past have tried to work with previous awarded Small Business to provide service for similar government equipment that was OEM, that resulted in not exercising option due to the repetitive performance required and maintenance.

GE Healthcare parts and labor cost are comparable to previous orders within the facility and other VA Hospitals. In addition, per FAR Part 8.408 (d) the price has already been deemed to be fair and reasonable by the National Acquisition Center (NAC).

(6) DESCRIBE THE MARKET RESEARCH CONDUCTED AMONG SCHEDULE HOLDERS AND THE RESULTS OR A STATEMENT OF THE REASON MARKET RESEARCH WAS NOT CONDUCTED:

Contracting Officer posted Sources Sought vis FedBizOpps VA256-17-N-1520 GE Nuclear Camera and Workstations Annual Service Contract (See Attached) for all interested vendors to view and answer required question that would assist the Contracting Officer in the contractor capabilities and the risk to the government for obtaining OEM software and parts for the government equipment.

Contracting Officer, sent via email to the three current VOSB/SDVOSB contract holders under NAC Solicitation SPE2D1-15-R-0001 and six email to contractors from VET BIZ search.
Alliant Enterprises, LLC VA797H-14-D-0002
Franklin Young International VA797H-16-D-0024
Glomax, Inc. VA797H-17-D-0006

All three NAC contractor holders do not possess the capability to meet the government requirement. Alliance only had exclusive partnership with Olympus (See Attached email for Additional Market Research). Franklin Young International, responded via telephone GE would not partner with them. Glomax, and the six email returned no communication.

Contracting Officer, per compliance with 38 U.S.C. 8127's "Rule of Two" Can confirm that no responses were received from any two SDVOSB/VOSB that would require the procurement to be set aside.

(7) ANY OTHER FACTS SUPPORTING THE JUSTIFICATION:

Contracting Officer posted Sources Sought Notice VA256-16-N-1193 via the Government Point of Entry (GPE)—FedBizOpps (www.fbo.gov) in 2016 for same requirement with the same results.

GE Sales Director Matt Harrison (See Attached), responded to the Sources Sought and communicated the following: GE Healthcare does not subcontract ourselves to SBs wanting to do pass-through contracts with the Fed Govt.

Mr. Harrison also communicated, GE Healthcare is the original equipment manufacturer for the major imaging radiology equipment included with your sources sought notice. These are GE Healthcare proprietary products, covered by GEHC patents and other intellectual property rights.

Mr. Harrison also communicated, GE Healthcare sells service for this equipment directly in the United States, but not through authorized dealers/distributors. GE Healthcare maintains certain proprietary service technologies relating to the equipment. Please note, however, that other parties are not prevented from servicing our product, and other parties may sell similar types of services.

Mr. Harrison also communicated, GE Healthcare would like to point out the following features which are proprietary to GE Healthcare and may be contained in your service contract quote (NAC Contract):

iLinq service provides one-touch access to GE Healthcare technical and clinical applications support, via the operator console, so your technicians can keep scanning and stay on schedule. **InSite™ Remote Diagnostics** supports high uptime by seamlessly integrating your equipment with the GE digital services network, so our engineers can evaluate, diagnose and resolve technical issues remotely when you report a problem.

InSite OnWatch proactive monitoring can identify and resolve small performance issues before they become big problems. Data-driven maintenance prediction tools continuously monitor your system and forecast maintenance needs. This allows you to schedule maintenance when it will cause the least disruptions to your operations.

iCenter™ is a web-based application that provides key information on maintenance history and asset utilization. This proven technology consolidates inventory, planned maintenance compliance, and performance comparisons for both diagnostic imaging and biomedical equipment. With iCenter you are provided with the vital, objective facts needed to make decisions and improve results.

TiP Answer Line™ provides toll-free phone access to GE Healthcare's applications experts.

Mr. Harrison also communicated, GE Healthcare does not certify Small Businesses or other vendors in the U.S. to perform service maintenance on GE Healthcare imaging equipment.

Mr. Harrison also communicated, GE Healthcare does not license proprietary service materials (Class C) to 3rd parties but will license the Class C materials to customers who have been properly trained by GE Healthcare.

Due to the previous responses from GE representative Mr. Harrison and to ensure due diligence in seeking Small Businesses with the capability to meet the government requirement the Contracting posted another Sources Sought VA256-17-N-1520 for current requirement.

The current Sources Sought VA256-17-N-1520 required contractor to provide communication and evidence they possess the capability to meet the government requirement. Procurement history prevails if the contractor can provide letter upfront from OEM manufacture government risk are low. The authorize vendor letter communicates to the Contracting Officer the contractor will be able to obtain OEM parts and OEM software. In addition, the Sources Sought required contractor to communicate they possess OEM training for required services for government requirement.

Per the current Sources Sought posted VA256-17-N-1520, one contractor responded IMED Biomedical, Inc.

VHAPM Part 808.405-6 Limiting Sources
Attachment 2: Request for Limited Sources Justification Format >\$150K

In response to the contractor responses, the Contracting Officer believes it is in the best interest of the government to Sole Source to GE. IMED communicated in their response "Due to the competitive nature of the medical device service industry, it is **very difficult for small/veteran owned businesses to receive OEM "authorizations"** that directly compete with OEM provisions.

Further, the Contracting Officer received communication from the Bio Med Service Line that are the Subject Matter Experts (See Attached). BIO MED communicated the following government equipment the NM640 (and associated Xeleris workstation) and MR430s are currently under warranty. Having another contractor not authorized by GE places government warranty at risk.

Imed does not have an interconnection agreement with the VA to perform remote monitoring and diagnostics. This is critical to response times and timely resolution of issues without GE even having to be onsite for certain issues.

GE MOU/ISA allowing interconnection with our medical devices which contain Protected Health Information (PHI).

(8) A STATEMENT OF THE ACTIONS, IF ANY, THE AGENCY MAY TAKE TO REMOVE OR OVERCOME ANY BARRIERS THAT LED TO THE RESTRICTED CONSIDERATION BEFORE ANY SUBSEQUENT ACQUISITION FOR THE SUPPLIES OR SERVICES IS MADE:

Contracting Officer will continue to execute due diligence in seeking contractors with the capability and validation

(9) REQUIREMENTS CERTIFICATION: I certify that the requirement outlined in this justification is a Bona Fide Need of the Department of Veterans Affairs and that the supporting data under my cognizance, which are included in the justification, are accurate and complete to the best of my knowledge. I understand that processing of this limited sources justification restricts consideration of Federal Supply Schedule contractors to fewer than the number required by FAR Subpart 8.4. *(This signature is the requestor's supervisor, fund control point official, chief of service or someone with responsibility and accountability.)*
