3. Vendor RFQ Instructions:
 - a) In order to maintain the vendor email group, all HTME IDIQ contractors are required to submit the following information to Ms. Jeanette Dyrek at jeanette.dyrek@va.gov.
 - 1) Contract Administrator: Provide the name, address and email of the current contract administrator.
 - 2) Provide the current contact information (name and email address) to be included on e-mail notifications regarding HTME updates and consolidations.
 - b) During the solicitation milestone following the **November 30, 2017** FBO posting and prior to the **January 4, 2018** submission of vendor quotes, all communication regarding the September 2017 consolidation shall be coordinated through the NAC consolidation coordinator, Iliana Jorge at iliana.jorge@va.gov. This includes all requests for clarification or additional information from vendors.

During the evaluation milestone, communication can be coordinated by the local/VISN Contracting Officer. This includes all clarifications or additional information that is required to complete evaluations. The local Contracting Officer will determine what access, if any, is needed by the vendors to obtain information and shall be present at all vendor presentations. Presentations are meant to clarify the understanding of equipment features in the quote. Prices or additional equipment or features shall not be discussed. Thus, once communications have begun with vendors relating to a specific quote, Contracting Officers must control those communications in order to ensure that those vendors are treated fairly and give the same opportunity.

Unless the local Contracting Officer requires clarification or additional information to complete the evaluation (including vendor presentations), all communications are through the NAC Contracting Officer. In addition, all other communications not related to local requirements must be coordinated through the NAC Contracting Officer.

- c) The NAC Contracting Officers will review the station's recommended source selection justifications and determine whether or not the justification is adequate to award the order or if additional information from the station is required before an award can be executed. Communication during this time will be through NAC Contracting Officers only. We have advised our customers that when the selection process begins there is to be no further contact with vendors regarding their requirements. Information such as members of the evaluation panel is considered confidential source selection information and may not be disclosed.
- d) We ask that vendors forward the above information to their respective sales team so that all are aware of the process and timelines.
- e) We also ask that you do not contact the NAC regarding the status of selections as this will only delay the process. After the NAC has reviewed the finalized all vendor selections for a VISN, an update providing the selections for that VISN will be issued.
- f) The September 2017 Consolidation will **NOT have phases**.
