

52.212-2 EVALUATION—COMMERCIAL ITEMS (OCT 2014)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered.

“Since this solicitation is Lowest Priced Technically Acceptable (LPTA) the source selection evaluation board will begin by reviewing the lowest priced proposal. If the board determines that this proposal is technically acceptable no other proposals will be reviewed. This proposal will have been deemed technically acceptable with the lowest price, so for this reason the award will be made based on FAR guidance.”

The following factors shall be used to evaluate offers:

PRICE

TECHNICAL

NOTE: PAST PERFORMANCE

b) *Options.* The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of Provision)

SUB FACTOR -2. Technical/Management Approach –

The Contractor shall demonstrate the following, relevant to the subject procurement.

(A) Contractor shall submit with proposal a detailed technical and management plan describing their proposed capability and methods to manage the performance of all work and requirements in Statement of Work. The plan shall be organized, specific and complete in detail, realistic, and provide a straightforward delineation of the proposed method to provide all labor, license, certification, personnel, material, transportation, management, and supervision to perform statistical support.

(B) Contractor shall submit with Technical Proposal a copy of company Liability Insurance.

(C) Contractor shall submit resources and documentation necessary that together demonstrate an adequate technical approach that will satisfy the government requirements.
