	UroNav Fusion Biops Syst2.0		
	UroNav Fusion Biopsy System v2.0		
	UroNav is an integrated, image-guided stereotaxic system that uses magnetic resonance (MR) and ultrasound (US) images in conjunction with electromagnetic (EM) tracking devices to plan, guide and document clinical interventions. The system provides real-time, three-dimensional visualization and navigation for pre-operative planning and intra-operative navigation of minimally-invasive interventional procedures. UroNav is a DICOM-compliant system that integrates with Picture Archiving and Communication System (PACS) networks and Invivo's DynaCAD MRI platform (sold separately. UroNav includes a mobile

DYNACAD 3 PROSTATE DIAG ONLY SERVER SOFTWARE

*** This component includes prostate diagnostic server software only.
DynaLOC interventional planning software is available seperately. ***

DynaCAD 3 Prostate Software is a two concurrent user client-server software application. Any server computer that meets the server minimum software and hardware requirements can be used as a DynaCAD 3 server.

Any computer that meets the client minimum software and hardware requirements can be used as a DynaCAD 3 client.

The DynaCAD 3 application allows unlimited clients to be installed but use is restricted to two users at a time. Additional concurrent users can be purchased with the "DynaCAD 3 Additional Concurrent Users" option.

Clients throughout the enterprise have access to the DynaCAD 3 advanced feature set including:

- Software-only package
- OS virtualization ready*

Item	Article - type number/ description	Quantity	Unit
------	------------------------------------	----------	------

- Multi-vendor compatibility
- Fully automated processing for streamlined workflow
- Advanced motion correction
- One click lesion segmentation
- Image MIP and MPR reformatting
- Automatic Prostate gland segmentation
- Inter-sequence image registration
- Reporting of quantification
- Diffusion imaging with ADC values, and color mapping
- Color overlays mapped onto other sequences (T1, T2, DWI)
- User customizable hangings for simplicity of use
- Result image generation and integrated reporting tool for DICOM export to PACS

*OS virtualization may degrade application performance

Any customer supplied SERVER Computer Hardware (rack-mount or tower) must meet or exceed the following computer configuration:

- OS Windows 7 or Server 2008:
 - o Windows 7, 64 bit Professional, SP1
 - o Windows Server 2008 R2 Standard, SP1
- Processor:
 - o Intel 4-core Xeon E5-26XX processor
(for image resolution < 512x512)
 - o Dual (2) Intel 6-core Xeon E5-26XX processors
(for image resolution > 512x512 & low study volume)
 - o Dual (2) Intel 8-core Xeon E5-26XX processors
(image resolution > 512x512 & high study volume)
- RAM:
 - o 32GB 1600MHz (image res < 512x512)
 - o 32GB 1600MHz (image res > 512x512 & low study volume)
 - o 64GB 1600MHz (image res > 512x512 & high study volume)
- Hard Drive: 300 GB System, 900 GB Data (10K RPM)
- DVD: DVD RW drive
- Graphics: Integrated or independent graphics card

- DynaCAD v3.X general software updates for one (1) year from date of installation.

- One (1) year remote system diagnostic and training support**

* Requires cabling to customer's computer network and available 115VAC 60Hz outlet power (not included)

** Requires access to high-speed Internet connection/Remote Access for service (not included)

Clinical Solutions Applications Training - Cancellation Policy and Charges

Invivo considers DynaCAD 3 Applications Training an important service that it provides to its customers. It is important for a Customer to understand that such training has certain costs and expenses. Therefore, in the event a Customer schedules this training and then cancels its participation in this training the Customer must pay a cancellation charges to cover Invivo's costs and expenses. Customer agrees to pay the following cancellation charges:

* If the Customer cancels training more than 15 days prior to the Applications Training Date there is no cancellation charge;

* If the Customer cancels training within 15 days but not less than 8 days prior to the Applications Training Date there is a flat cancellation charge of \$1500.00;

* If the Customer cancels training within 7 calendar days prior to the Applications Training Date there is a flat cancellation charge of \$2500.00.

Invivo and Customer agree that the above charges are commercially reasonable cancellation charges and are due immediately upon the C
