#### 9L-D Linear Probe

Broad-spectrum linear probe. Applications include: vascular, small parts, pediatric, and abdomen. Biopsy kit available.

#### L8-18i-D Linear Probe

Broad-spectrum linear probe. Preferred applications: musculoskeletal, small parts, vascular, intraoperative.

#### C1-6-D XDclear Probe

XDclear is \_\_\_\_\_ highest performing transducer technology which is a proprietary combination of advanced materials and innovative acoustic design. Convex transducer with XDclear

---

technology helps achieve impressive depth on patients with difficult body habitus. Applications: abdominal, obstetrics, gynecological, urology, and vascular. Biopsy kit available.

#### C2-9-D XDclear Transducer

XDclear is the highest performing transducer technology which is a proprietary combination of advanced materials and innovative acoustic design. Convex transducer with XDclear technology provides ultra-wide bandwidth and superb image quality. Applications: abdominal, obstetrics, gynecological, urology, vascular, pediatrics. Biopsy kit available.

#### BW 898 Printer

UP898 B&W thermal printer for integrated mounting into the LOGIQ E9 console.

#### LOGIQ E9 XDclear 2.0 Adv Ref Manual

English advanced reference manual in hardcopy for LOGIQ E9 XDclear 2.0.

#### LOGIQ E9 XDclear 2.0 English eDocs Kit

English electronic user documentation for LOGIQ E9 XDclear 2.0.

#### LOGIQ E9 Technology Course: Full Service Package

- Product-specific training
- Training conducted at
- All inclusive pricing package

This 2.5-day course is designed to help customers realize the full potential of their technology investment. Instruction includes: Advanced physics and instrumentation, in-depth technology review and image optimization and customization. Highlights include technical and clinical lectures as well as focused hands-on scanning under the supervision of product experts. Course must be redeemed within one year of purchase.

Full service package includes: Course tuition, airfare, hotel and breakfast/lunch while in training for one attendee. This course is approved for SDMS credit.

---

#### LOGIQ E9 SVC TRNG+LDG/AIR

The course is an overview of the LOGIQ E9 product illustrating the practical skills needed to install software and peripherals, set up connectivity with other networking devices, and troubleshoot the system. Participants will be involved in basic system operations, identification of service tools and diagnostics, and disassembling the system. The course will provide a detailed explanation of the individual hardware and software components and their integration and interconnectivity with other system components. Participants will learn hands-on skills in labs designed to reinforce principles reviewed in class. Training must be redeemed within 18 months of purchase. Training is non refundable and non discountable. Pre-purchased training sold with equipment must be used by direct hospital employees only. Price includes tuition, lodging and airfare. PREREQUISITE: Essentials of Healthcare IT, R0359PG Explore Connectivity Basics for Ultrasound, or an approved IT certification.
