RFI NO.:1	DATE:1-2-2018	SPEC/DWG. REFERENCE(s): RFI 13
REPLY NEEDED BY:		

INFORMATION NEEDED:

Can you confirm what asbestos is on the buried steam lines? We have been engaged in steam line removal at other VA facilities where there has been friable and non-friable asbestos. The cost differential for abatement is significant between these two systems. Please verify which type of ACM is on the pipe wrap insulation.

**All underground steam, condensate and hot water piping is assumed to contain asbestos insulation.
The type of asbestos insulation has not been determined.**

REPLY:

RFI's will be answered by amendment(s) posted to fbo.gov.
