Description of Service:

All SDVOSB contractors are encourage to a provide *Quotation Package* for the **Compressor Change-out Service**.

STATEMENT OF WORK

*******NOTICE*******

Gray Market Equipment

(a) Gray market items are Original Equipment Manufacturers (OEM) goods sold through unauthorized channels in direct competition with authorized distributors. This procurement includes removing the old compressor and installing new OEM compressor as stated in the SOW, along with any ancillary replacements parts. No remanufactures or gray market items will be acceptable.

(b) The contractor shall be an OEM, authorized dealer, authorized distributor or authorized reseller for the proposed compressor replacement as stated in the SOW along with any ancillary replacements parts. The Contractor shall provide an authorization letter or other documents from the OEM as verification along with OEM's warranty of services that will be provide by the OEM. All warranty and services contracts for maintenance shall be in accordance with the OEM terms and conditions.

(c) The delivery of gray market items to the VA in the fulfillment of an order/award constitutes a breach of contract. Accordingly, the VA reserves the right enforce any of its contractual remedies. This includes termination of the contract or, solely at the VA's election, allowing the Vendor to replace, at no cost to the Government, any remanufactured or gray market item(s) delivered to a VA medical facility upon discovery of such items.

Background

Chiller #8, located on Floor 8, has failed. This chiller services the Operating Suite at the Oklahoma City VA Health Care System. The oil pump for the compressor on the second circuit failed. Since the oil pump is an integral part of the compressor, it cannot be replaced as an individual part. This compressor is specific to Carrier and other manufacturer parts are not compatible with the existing system. The compressor is part of the Carrier Liquid Chiller model# 30HXA161RZE661KA/ SN 5105Q05873. The chiller is 80 tons using R134-a refrigerant.

Task required

The contractor shall be will responsible for removing the existing failed compressor and provide all the necessary resources and labor to order and Install a new compressor-model# 4905UO43526. In addition to the compressor installation, this task includes furnishing and installing/changing the following:

- 1 internal filter (new with replacement compressor);
- 1 external filter drier (Henry Technologies S-4004TA or equivalent), and Oil charge in separator (Inhibited polyolester based synthetic compressor lubricant for use in screw compressors, ISO Viscosity Grade 220) on Chiller #8. (***This may be inclusive with the new compressor-please confirm with manufacture***)

Combined Synopsis/Solicitation for Commercial Items -**SDVOSB SETASIDE**

After the compressor installation, the contractor will be responsible for testing system for leaks and make the necessary repairs to correct the leaks associated with the installation.

The new compressor is to perform to its manufacturer design and intended purpose. The contractor will return the Chiller #8 to service when completed.

Constraints for this task

The contractor cannot use elevators or any lifts located on the OKC VAHCS campus for the compressor. Due to the location (Floor 8 Clinic Addition mechanical room).

Delivery and placement of the compressor on Floor 8 will be performed after hours (weekends and weekdays before 08:00 and after 16:30).

All other work is to be performed during normal business hours (08:00 to 16:30 Monday through Friday excluding federal holidays). Federal Holiday within the next 120 days: **Monday- May 28, 2018**

Government Responsibility

All work will be coordinated with the OKC VAHCS's Contracting Officer's Representative (COR).

<http://www.va.gov/oal/library/vaar/>

The following contract clauses apply to this acquisition:

- FAR 52.212-4 **Contract Terms and Conditions—Commercial Items (Jan 2017) (IBR)**

The following clauses are incorporated into **52.212-4 as an addendum** to this contract:

Addendum to Section (c) *Changes under 52.212-4: The Contracting Officer shall follow FAR 43 guidance for Modifications or changes in determining if a bilateral or unilateral agreement is applicable for the a given change.*

- CL-120 **SUPPLEMENTAL INSURANCE REQUIREMENTS**

In accordance with FAR 28.307-2 and FAR 52.228-5, the following minimum coverage shall apply to this contract:

(a) Workers' compensation and employers liability: Contractors are required to comply with applicable Federal and State workers' compensation and occupational disease statutes. If occupational diseases are not compensable under those statutes, they shall be covered under the employer's liability section of the insurance policy, except when contract operations are so commingled with a Contractor's commercial operations that it would not be practical to require this coverage. Employer's liability coverage of at least \$100,000 is required, except in States with exclusive or monopolistic funds that do not permit workers' compensation to be written by private carriers.

(b) General Liability: \$500,000.00 per occurrences.

(c) Automobile liability: \$200,000.00 per person; \$500,000.00 per occurrence and \$20,000.00 property damage.

(d) The successful bidder must present to the Contracting Officer, prior to award, evidence of general liability insurance without any exclusionary clauses for asbestos that would void the general liability coverage.

- VAAR 852.219-10 **VA Notice of Total Service-Disabled Veteran-Owned Small Business Set-Aside (JUL 2016)** (DEVIATION)

(a) Definition. For the Department of Veterans Affairs, "Service-disabled Veteran-owned small business concern or SDVSOB:"

(1) Means a small business concern:

(i) Not less than 51 percent of which is owned by one or more service-disabled Veterans or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more service-disabled Veterans or eligible surviving spouses (see VAAR 802.201 Surviving Spouse definition);

(ii) The management and daily business operations of which are controlled by one or more service-disabled Veterans (or eligible surviving spouses) or, in the case of a service-disabled Veteran with permanent and severe disability, the spouse or permanent caregiver of such Veteran;

(iii) The business meets Federal small business size standards for the applicable North American Industry Classification System (NAICS) code identified in the solicitation document;

(iv) The business has been verified for ownership and control pursuant to 38 CFR 74 and is so listed in the Vendor Information Pages database, (<https://www.vip.vetbiz.gov>); and

(v) The business will comply with subcontracting limitations in 13 CFR 125.6, as applicable.

(2) "Service-disabled Veteran" means a Veteran, as defined in 38 U.S.C. 101(2), with a disability that is service-connected, as defined in 38 U.S.C. 101(16).

(b) General.

(1) Offers are solicited only from verified service-disabled Veteran-owned small business concerns. Offers received from concerns that are not verified service-disabled Veteran-owned small business concerns shall not be considered.

Combined Synopsis/Solicitation for Commercial Items - **SDVOSB SETASIDE**

(2) Any award resulting from this solicitation shall be made to a verified service-disabled Veteran-owned small business concern.

(c) Agreement. A service-disabled Veteran-owned small business concern agrees that in the performance of the contract, the concern will comply with the limitation on subcontracting requirements in 13 CFR § 125.6.

(d) A joint venture may be considered a service-disabled Veteran owned small business concern if the joint venture complies with the requirements in 13 CFR 125.15, provided that any reference therein to SDVO SBC is to be construed to apply to a VA verified SDVOSB as appropriate.

(e) Any service-disabled Veteran-owned small business concern (non-manufacturer) must meet the requirements in FAR 19.102(f) of the Federal Acquisition Regulation to receive a benefit under this program.

(End of Clause)

- VAAR 852.211-70 **SERVICE DATA MANUALS** (NOV 1984)
 - (a) The successful bidder will supply operation/maintenance (service data) manuals with each piece of equipment in the quantity specified in the solicitation and resulting purchase order. As a minimum, the manual(s) shall be bound and equivalent to the manual(s) provided the manufacturer's designated field service representative as well as comply with all the requirements in paragraphs (b) through (i) of this clause. Sections, headings and section sequence identified in (b) through (i) of this clause are typical and may vary between manufacturers. Variances in the sections, headings and section sequence, however, do not relieve the manufacturer of his/her responsibility in supplying the technical data called for therein.
 - (b) Title Page and Front Matter. The title page shall include the equipment nomenclature, model number, effective date of the manual and the manufacturer's name and address. If the manual applies to a particular version of the equipment only, the title page shall also list that equipment's serial number. Front matter shall consist of the Table of Contents, List of Tables, List of Illustrations and a frontispiece (photograph or line drawing) depicting the equipment.
 - (c) Section I, General Description. This section shall provide a generalized description of the equipment or devices and shall describe its purpose or intended use. Included in this section will be a table listing all pertinent equipment specifications, power requirements, environmental limitations and physical dimensions.
 - (d) Section II, Installation. Section II shall provide pertinent installation information. It shall list all input and output connectors using applicable reference designators and functional names as they appear on the equipment. Included in this listing will be a brief description of the function of each

Combined Synopsis/Solicitation for Commercial Items -**SDVOSB SETASIDE**

connector along with the connector type. Instructions shall be provided as to the recommended method of repacking the equipment for shipment (packing material, labeling, etc.).

(e) Section III, Operation. Section III will fully describe the operation of the equipment and shall include a listing of each control with a brief description of its function and step-by-step procedures for each operating mode. Procedures will use the control(s) nomenclature as it appears on the equipment and will be keyed to one or more illustrations of the equipment. Operating procedures will include any preoperational checks, calibration adjustments and operation tests. Notes, cautions and warnings shall be set off from the text body so they may easily be recognizable and will draw the attention of the reader. Illustrations should be used wherever possible depicting equipment connections for test, calibration, patient monitoring and measurements. For large, complex and/or highly versatile equipment capable of many operating modes and in other instances where the Operation Section is quite large, operational information may be bound separately in the form of an Operators Manual. The providing of a separate Operators manual does not relieve the supplier of his responsibility for providing the minimum acceptable maintenance data specified herein. When applicable, flow charts and narrative descriptions of software shall be provided. If programming is either built-in and/or user modifiable, a complete software listing shall be supplied. Equipment items with software packages shall also include diagnostic routines and sample outputs. Submission information shall be given in the Maintenance Section to identify equipment malfunctions that are software related.

(f) Section IV, Principles of Operation. This section shall describe in narrative form the principles of operation of the equipment. Circuitry shall be discussed in sufficient detail to be understood by technicians and engineers who possess a working knowledge of electronics and a general familiarity with the overall application of the devices. The circuit descriptions should start at the overall equipment level and proceed to more detailed circuit descriptions. The overall description shall be keyed to a functional block diagram of the equipment. Circuit descriptions shall be keyed to schematic diagrams discussed in paragraph (i) below. It is recommended that for complex or special circuits, simplified schematics should be included in this section.

(g) Section V, Maintenance. The maintenance section shall contain a list of recommended test equipment, special tools, preventive maintenance instructions and corrective information. The list of test equipment shall be that recommended by the manufacturer and shall be designated by manufacturer and model number. Special tools are those items not commercially available or those that are designed specifically for the equipment being supplied. Sufficient data will be provided to enable their purchase by the Department of Veterans Affairs. Preventive maintenance instructions shall consist of those recommended by the manufacturer to preclude unnecessary failures. Procedures and the recommended frequency of performance shall be included for visual inspection, cleaning, lubricating, mechanical adjustments and circuit calibration. Corrective maintenance shall consist of the

Combined Synopsis/Solicitation for Commercial Items - **SDVOSB SETASIDE**

data necessary to troubleshoot and rectify a problem and shall include procedures for realigning and testing the equipment. Troubleshooting shall include either a list of test points with the applicable voltage levels or waveforms that would be present under a certain prescribed set of conditions, a troubleshooting chart listing the symptom, probable cause and remedy, or a narrative containing sufficient data to enable a test technician or electronics engineer to determine and locate the probable cause of malfunction. Data shall also be provided describing the preferred method of repairing or replacing discrete components mounted on printed circuit boards or located in areas where special steps must be followed to disassemble the equipment. Procedures shall be included to realign and test the equipment at the completion of repairs and to restore it to its original operating condition. These procedures shall be supported by the necessary waveforms and voltage levels, and data for selecting matched components. Diagrams, either photographic or line, shall show the location of printed circuit board mounted components.

(h) Section VI, Replacement Parts List. The replacement parts list shall list, in alphanumeric order, all electrical/electronic, mechanical and pneumatic components, their description, value and tolerance, true manufacturer and manufacturers' part number.

(i) Section VII, Drawings. Wiring and schematic diagrams shall be included. The drawings will depict the circuitry using standard symbols and shall include the reference designations and component values or type designators. Drawings shall be clear and legible and shall not be engineering or production sketches.

(End of Clause)

- **852.232-72 *Electronic Submission of Payment Requests* (NOV 2012)**

a) *Definitions*. As used in this clause-

(1) *Contract financing payment* has the meaning given in [FAR 32.001](#) .

(2) *Designated agency office* has the meaning given in 5 CFR 1315.2(m).

(3) *Electronic form* means an automated system transmitting information electronically according to the accepted electronic data transmission methods and formats identified in paragraph (c) of this clause. Facsimile, e-mail, and scanned documents are not acceptable electronic forms for submission of payment requests.

(4) *Invoice payment* has the meaning given in [FAR 32.001](#) .

(5) *Payment request* means any request for contract financing payment or invoice payment submitted by the contractor under this contract.

(b) *Electronic payment requests*. Except as provided in paragraph (e) of this clause, the contractor shall submit payment requests in electronic form. Purchases paid with a

Combined Synopsis/Solicitation for Commercial Items -**SDVOSB SETASIDE**

Government-wide commercial purchase card are considered to be an electronic transaction for purposes of this rule, and therefore no additional electronic invoice submission is required.

(c) *Data transmission.* A contractor must ensure that the data transmission method and format are through one of the following:

(1) VA's Electronic Invoice Presentment and Payment System. (See Web site at <http://www.fsc.va.gov/einvoice.asp>.)

(2) Any system that conforms to the X12 electronic data interchange (EDI) formats established by the Accredited Standards Center (ASC) and chartered by the American National Standards Institute (ANSI). The X12 EDI Web site (<http://www.x12.org>) includes additional information on EDI 810 and 811 formats.

(d) Invoice requirements. Invoices shall comply with [FAR 32.905](#).

(e) *Exceptions.* If, based on one of the circumstances below, the contracting officer directs that payment requests be made by mail, the contractor shall submit payment requests by mail through the United States Postal Service to the designated agency office. Submission of payment requests by mail may be required for:

- (1) Awards made to foreign vendors for work performed outside the United States;
- (2) Classified contracts or purchases when electronic submission and processing of payment requests could compromise the safeguarding of classified or privacy information;
- (3) Contracts awarded by contracting officers in the conduct of emergency operations, such as responses to national emergencies;
- (4) Solicitations or contracts in which the designated agency office is a VA entity other than the VA Financial Services Center in Austin, Texas; or
- (5) Solicitations or contracts in which the VA designated agency office does not have electronic invoicing capability as described above.
